Life Orientation Trial Papers And Memos 2014:

Media, Revolution and Politics in Egypt Abdalla F. Hassan, 2015-10-01 For too long Egypt's system of government was beholden to the interests of the elite in power aided by the massive apparatus of the security state. Breaking point came on 25 January 2011. But several years after popular revolt enthralled a global audience, the struggle for democracy and basic freedoms are far from being won. Media, Revolution and Politics in Egypt: The Story of an Uprising examines the political and media dynamic in pre and post revolution Egypt and what it could mean for the country's democratic transition. We follow events through the period leading up to the 2011 revolution, eighteen days of uprising, military rule, an elected president's year in office and his ouster by the military. Activism has expanded freedoms of expression only to see those spaces contract with the resurrection of the police state. And with sharpening political divisions, the facts have become amorphous as ideological trends cling to their own narratives of truth.

Mental Health in Nursing - E-Book Epub Kim Foster, Peta Marks, Anthony O'Brien, John Hurley, 2024-08-26 Holistic overview of mental health for nurses in a practice setting. All nurses play an important role in supporting mental health as part of holistic care provision. This book is designed to help students and novice clinicians to develop the knowledge, skills and attitudes they need to care for people across a wide range of specialist and non-specialist practice settings. Written by a highly experienced team of mental health nursing experts, the book covers all the common mental health conditions nurses are likely to encounter in practice. It provides essential information on assessing for and identifying people experiencing mental illness, as well as how to provide appropriate responses, support and referral across the numerous contexts in which nurses work. Fully updated and expanded, the sixth edition includes a wealth of lived experience perspectives designed to provide a critical perspective and a way of thinking about the issues more deeply, building empathy and understanding. High quality evidence-based content developed specifically to meet the learning needs of students and novice clinicians in Australia and New Zealand. Describes the foundational principles and core mental health skills required by all nurses. Covers generalist health settings; content is relevant for nursing students across their curriculum. Focuses on mental health, not mental illness; an emphasis on recovery-oriented practice, trauma-informed care and the value of building therapeutic relationships. Articulates and demonstrates the expert knowledge and skills of mental health nurses and includes information on professional self-care for all nurses. Covers how to assess, manage and treat the major mental health problems people commonly experience. Provides scenarios for mental health screening, assessment, referral and support across a range of clinical settings. Key points, anecdotes, critical thinking exercises, tables and references in every chapter support learning. Online resources for nurses in the workplace, including videos and clinical scenarios. Commentaries by experts on lived experience in all chapters, understand what's helpful and what's not. New to this edition: New First Peoples chapters from both New Zealand and Australia; how to provide cultural safety; New chapter on preparing for mental health clinical placements; More content on suicide; More content on the
