Life Orientation For Final Exams 2013:

Research on Emotion and Learning: Contributions from Latin America Camilo Hurtado-Parrado, Carlos Gantiva, Leonardo A. Ortega, Alexander Gómez-A, Lucas Cuenya, Javier Leonardo Rico, 2020-05-11 Latin America has increased its share of world scientific publications by nearly twofold during the last two decades approximately from 2 to 4% Despite this positive trend the scholarly impact of scientific research produced in the region measured in terms of citation rate remains low Two interrelated factors that contribute to this situation is that most research groups tend to work in isolation or in local sporadic collaboration and results are often published in journals that are not indexed in major citation databases e g SCOPUS or Web of Science Ultimately part of Latin American high quality research seems to remain hidden from the rest of the world Over the last decades an important number of Latin American scientists have developed fruitful research agendas on questions on learning and emotion focusing on basic and or translational research with humans and other animal models and implementing diverse methodologies Notwithstanding the important contributions of these research programs Latin American research on emotion and learning has followed the overall trend of other research fields throughout the region namely remaining partially hidden from the large scientific community of the world This Research Topic aimed to engage researchers from Latin America to share their empirical and conceptual work on learning and emotion Ultimately this effort was expected to strengthen and integrate our regional community of experts enhance global networking and establish new challenges and developments for future investigation

The Psychology of Health and Illness Leslie D. Frazier, 2025-06-30 The Psychology of Health and Illness is a thoroughly updated version of Leslie Frazier s previous textbook on health psychology which provides an engaging and contemporary approach to understanding health psychology from a truly international perspective Combining both biopsychosocial and lifespan developmental perspectives the book integrates core theory research and practice on global and cross cultural health issues It includes thoughtful and deliberately inclusive coverage of marginalized groups especially BIPOC LGBTQ and other underrepresented groups designed to raise diversity and racial consciousness in a globally integrative way Alongside classic health psychology concepts the author introduces students to cutting edge scientific and medical topics such as epigenetics the gut microbiome and the nonmedical use of prescription drugs The book also focuses on global public health and health disparities and promotes a strengths based approach to health rather than a deficits based approach It includes a wide range of pedagogical features including real world applications engaging anecdotes and case studies opportunities for self reflection and numerous text boxes This is essential reading for undergraduate students on Health Psychology courses as well as those in related fields such as nursing and the allied health professions
