Dove,2021-09-26 Pool your collective wisdom in support of your English learners English Learners ELs and multilingual learners MLs have double the work of their English speaking peers as they are required to master language and content simultaneously To support this dynamic academic and language development process all teachers need to have an understanding of language acquisition and EL ML specific methodologies along with offering social emotional support to ELs MLs and work in tandem with each other Bestselling authors Andrea Honigsfeld and Maria G Dove have returned with this new resource that complements and expands on their previous titles on co teaching and collaboration by addressing collaborative planning in greater depth Co planning is positioned as the first step toward integrative language and content instruction as regular and purposeful collaboration ensures that ELs MLs have access to core content Key features include Practical step by step guidance to starting and sustaining collaborative planning for integrated language literacy and social emotional development An array of checklists templates and protocols for immediate implementation Snapshots from the Field provide real life examples of co planning in action Beautiful full color design with original sketch notes to bring concepts to life QR codes that link to author interviews elaborating on key ideas This substantial guide will assist novice and seasoned educators alike in their move away from isolated practices and help them engage in collaborative planning and professional dialogue about asset based best practices for ELs MLs Exploring STEM Environments that Broaden Participation Tyrslai Williams, Renã A. S. Robinson,Zakiya S. Wilson-Kennedy,2025-09-16 Creating spaces conducive for all students pursuing degrees in STEM is a constant conversation in higher education Studies establish the need for broad participation in STEM and the barriers in place that prevent matriculation through critical junctures Through these studies several suggestions and recommendations suggest supporting students through advising mentoring and research experience Very little is discussed about the tools and strategies needed to enhance students own development of self efficacy and self identity through mentorship in formal environments like the lab classroom and departments but also in informal STEM

environments like bridge programs organizational involvement and mentoring groups While the environments seem very different the mission of dynamic approaches to student progression is apparent Furthermore understanding how the support evolves at each critical juncture is critical to the way in which the future of STEM will advance **Grading Visible**
