Flexible Lives Stefanie Reissner, Michal Izak, 2025-08-07 This geographically and methodologically diverse volume shines the spotlight on a variety of flexible working practices beyond the predominantly Western perspective and

zooms in on the gendered aspects of flexible working The increasing use of flexible work arrangements has decoupled work from time and space making the world of work and home increasingly fluid and challenging to manage The Covid 19 pandemic in particular has been a catalyst for questioning accepted norms of where when and how work takes place This book seeks to explore the impact which this reshaping of traditional modes of working has had on workplace interactions and relationships as well as on managing the boundaries between familial and working lives In this way this collection contributes to a wider dialogue concerning the flexibility challenges encountered by white collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in *Culture and Organization* and are accompanied by an updated Introduction and a new Epilogue

Teacher as Designer David Scott, Jennifer Lock, 2021-02-20 This book offers insights into how design based processes principles and mindsets can be productively employed in diverse P 16 educational spaces by a myriad of educational actors including teachers instructional leaders and students It addresses concerns about the theoretical and practical implications of the still emergent emphasis of design in education The book begins by examining a number of prominent design processes being used by educators including human centred design designing for authentic inquiries and Universal Design for Learning It then delves into how teachers system leaders and students can engage in educational design within the complex spaces of K 12 contexts Finally the book takes up design in education within a maker and making context Each chapter includes a vignette a series of guiding questions along with specific design principles that can help address common challenges and issues educators encounter in their practice This book provides both theoretical and practical elements involved in educational design and is beneficial to scholars graduate students educators and pre service teachers
