Taking Back Philosophy Bryan W. Van Norden,2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China India Africa and other non Western cultures This biting and provocative critique of American higher education says yes Even though we live in an increasingly multicultural world most philosophy departments stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon In Taking Back Philosophy Bryan W Van Norden lambastes academic philosophy for its Eurocentrism insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic Taking Back Philosophy is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of

philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom

Social Justice, Transformation and Knowledge

James Avis, 2016-01-22 *Social Justice Transformation and Knowledge Policy Workplace Learning and Skills* examines the policy contexts in which lifelong learning vocational education and training and skill development is set. It provides a critique of neo liberalism and its impact on vocational education and training and lifelong learning. It interrogates potentially progressive policy interventions that take for granted capitalist relations as these can become a form of comfort radicalism that whilst calling for structural change remain lodged within capitalism. Such analyses are limited particularly in austere conditions of worklessness with increasing numbers of workers surplus to the requirements of capital. Offering detailed discussions within UK European and global contexts this book proves an insightful and critical text which illustrates Professor Avis extensive experience and knowledge of the field. Adopting a substantive focus on debates and analysis with significance that extends beyond the particular policy context of England the book offers an exploration of arguments that suggest workplace learning carries with it progressive possibilities an examination of models of class implicit within education policy and documents consideration of forms of governance and professionalism and their articulation to the pursuit of social justice an insight into discussions concerned with social justice knowledge as well as the current conditions of austerity in which education and social policy are emphasised. *Social Justice Transformation and Knowledge* is a significant addition to the field. It is an insightful and thought provoking book from which students lecturers and researchers with an interest in education studies education policy and social justice will greatly benefit from reading. *Social Mobility for the 21st Century*

Steph Lawler, Geoff Payne, 2017-12-14 *Social Mobility for the 21st Century* addresses experiences of social mobility and the detailed processes through which entrenched intergenerationally transmitted privilege is reproduced. Contributions include but are not limited to family relationships students encounters with higher education narratives of work careers and mobility identities. The book intends to challenge both the framework of the more traditional approach and the politicisation of mobility which casts mobility as a possession a commodity or a character trait and threatens to castigate the non mobile as carrying a personal responsibility for their situation. This book presents critical analyses of routes into social mobility the experience of social mobility and the political and social implications of social mobility's panacea status. Drawing on the work of established scholars and more recent entrants the chapters offer a fresh look at social mobility opening up the topic to a wider readership among the profession and beyond and stimulating further debate. This book will appeal to higher level students and scholars of sociology alike as well as having a broad cross disciplinary appeal. *Culture Counts*

Serena Nanda, Richard L. Warms, 2021-10-19 Now with SAGE Publishing *Culture Counts* is a concise introduction to anthropology that illustrates why culture matters in our understanding of humanity and the world around us. Serena Nanda and Richard L. Warms draw students in with engaging ethnographic stories and a conversational writing style that encourages them to interact cross culturally solve problems and effect positive change. The brief format gives majors and non majors the essentials they need and frees up the instructor to teach the course the way they want to teach it. The Fifth Edition

includes new examples and vignettes that are important to the study of cultural anthropology Issues of gender identity globalization intersectionality inequality and public health have been incorporated throughout the book as well as a new chapter on race and ethnicity that brings the book in step with recent conversations about power race and history This title is accompanied by a complete teaching and learning package **Agents of Flourishing** Amy L.
