**Risk Regulation in the Internal Market** Maria Weimer, 2019-03-13 This book offers a topical inquiry into the legal and political limits of EU regulation in the field of risk and new technologies surrounded by techno scientific complexity uncertainty and societal contestation It uses agricultural biotechnology as a paradigmatic example to illustrate the complex intertwinement between environmental public health economic and social concerns in risk regulation Weimer analyses the drawbacks of the EU approach to agricultural biotechnology showing that its reductionism i e the narrow understanding of GMO risks as well as the exclusion of broader societal concerns related to environmental and social sustainability has undermined both the legitimacy and effectiveness of EU regulation in this area Resistance to this approach however has also triggered legal innovations prompting us to re think EU internal market law including the way in which it manages the tensions between unity and diversity and between social and economic concerns This text offers fresh and original insights into how far the EU can go in harmonizing regulatory approaches to risk At the same time it proposes new ways of re thinking EU risk regulation to make it more responsive to different perspectives on risk and technology A unique feature of this book is that it contributes to various strains of scholarship including risk regulation internal market law public administration and studies of governance and regulation as well as connecting these themes to broader debates about the legitimacy of European integration and new ways of differentiated integration As a result it assists in re imagining the EU internal market and its regulation as a site of diversity

**EU Global Strategy and Human Security** Mary Kaldor, Iavor Rangelov, Sabine Selchow, 2018-04-17 This volume examines the EU s Global Strategy in relation to human security approaches to conflict Contemporary conflicts are best understood as a social condition in which armed groups mobilise

sectarian and fundamentalist sentiments and construct a predatory economy through which they enrich themselves at the expense of ordinary citizens This volume provides a timely contribution to debates over the role of the EU on the global stage and its contribution to peace and security at a time when these discussions are reinvigorated by the adoption of the EU Global Strategy It discusses the significance of the Strategic Review and the Global Strategy for the re articulation of EU conflict prevention crisis management peacebuilding and development policies in the next few years It also addresses the key issues facing EU security in the 21st century including the conflicts in Ukraine Libya and Syria border security cyber security and the role of the private security sector The book concludes by proposing that the EU adopts a second generation human security approach to conflicts as an alternative to geopolitics or the War on Terror taking forward the principles of human security and adapting them to 21st century realities This book will be of interest to students of human security European foreign and security policy peace and conflict studies global governance and IR in general

### **The Source of All Things**

Reinhard Friedl, 2025-08-22 In the tradition of Henry Marsh's Do No Harm Reinhard Friedl's The Source of All Things is a heart surgeon's personal investigation of the human heart moving from his riveting clinical experiences to a more poetic understanding of its workings The heart is our most important organ Yet despite that it has not changed since the appearance of Homo sapiens 300 000 years ago it is also our most mysterious In most human cultures it is seen as the source of love sympathy joy courage strength and wisdom What if the heart could answer questions neurosciences can't begin to Having witnessed the extraordinary complexity and unpredictability of human hearts in the operating theatre each one individual like a fingerprint heart surgeon Reinhard Friedl looked again at this primitive pump to reconcile it with his experiences from thousands of heart operations In this book he presents findings from various scientific disciplines such as secret connections of the heart and brain and their influence on emotions and consciousness He reveals the miracle that is the heart that we speak about so often yet is strangely foreign to many human beings Full of compelling patient stories The Source of All Things ends with a plea that we recognize the heart's wisdom and adopt a more heart centered way of living leading to greater health and more joy

**Nimble** Baba Prasad, 2015-04-24 The world today can be best described by one word turbulence As change rages all around how can you as an individual or as an organization take advantage of unexpected opportunities and succeed in difficult circumstances In a book that challenges traditional notions of strategy Baba Prasad draws on his research at some of the world's best business schools to show how intelligence can help you and your business navigate this maelstrom The Intelligences Framework presented in Nimble goes beyond the common management concept of agility it presents an immensely practical and hands on approach for companies and individuals to develop five kinds of intelligences and apply them in different settings for maximum benefit Bridging strategy leadership and innovation and with vivid illustrations Nimble provides a path breaking assessment methodology and a systematic four step approach that every company and individual can use to lead amid turbulence

### **Imprisoned by the Past** Prof. Jeffrey L.

Kirchmeier,2014-12-31 Imprisoned by the Past Warren McCleskey and the American Death Penalty connects the history of the American death penalty to the case of Warren McCleskey By highlighting the relation between American history and an individual case Imprisoned by the Past provides a unique understanding of the big picture of capital punishment in the context of a compelling human story McCleskey s criminal law case resulted in one of the most important Supreme Court cases in U S legal history where the Court confronted evidence of racial discrimination in the administration of capital punishment The case marks the last that the Supreme Court realistically might have held that capital punishment violates the Eighth Amendment of the U S Constitution As such the constitutional law case also created a turning point in the death penalty debate in the country The book connects McCleskey s case as well as his life and crime to the issues that have haunted the American death penalty debate since the first executions by early settlers and that still affect the legal system today Imprisoned by the Past ties together three unique American stories in U S history First the book considers the changing American death penalty across centuries where drastic changes have occurred in the last fifty years Second the book discusses the role that race played in that history And third the book tells the story of Warren McCleskey and how his life and legal case brought together the other two narratives
