The new edition of this best selling textbook provides a systematic and thoroughly updated overview of the major theories and styles of discipline in schools. Drawing on the latest international research the book outlines how teachers can develop a personal style in classroom management based on a sound understanding of theory. The Induction of Early Childhood Educators Laura K. Doan, 2024-01-11. The Induction of Early Childhood Educators presents new strategies for reducing the number of educators who are leaving the field within the first five years of work. Based on new research carried out with beginning early childhood educators in British Columbia, Canada, Laura K. Doan proposes a set of new best practices in mentoring and inducting novice early childhood educators. The book offers a clear insight into the needs, identity challenges, joys, frustrations, isolation, triumphs, and support that all new educators face. The chapters cover a range of theoretical approaches such as communities of practice, teacher efficacy, adult learning theory, and professional identity development and show how these can be applied to mentoring, observations, feedback, and continuing professional development. While the primary research was carried out in the Canadian context, Doan shows how best practice can be applied elsewhere with examples from around the world. **Instructor's Manual to Accompany The Dynamic Universe: an Introduction to Astronomy, Third Edition**, Theodore P.
