People Skills for Behavior Analysts Carmen Hall, Kimberly Maich, Brianna M. Anderson, 2023-11-13 People Skills for Behavior Analysts provides a much needed introduction to the people skills needed to succeed as a behavior analyst. Divided into two primary parts: Foundational Skills and Specialized Skills, this book addresses an impressive breadth of people skills focusing on intrapersonal and interpersonal skills, collaboration, consultation, and training leadership and resource development. Relying on recent evidence-based practices and relevant literature tailored to meet the new BACB Task List Professional Ethical Compliance Code and Supervised Independent Fieldwork requirements, the text includes contributions from leading figures from a wide variety of applied behavior analysis subfields to provide a truly balanced overview. The book delves into the literature from fields related to behavior analysis such as counselling psychology, graphic design, management, and education, and applies these perspectives to behavioral theories and principles to provide students, new graduates, and seasoned professionals with research best practices, reflective questions, and practical techniques. From reflecting on one's practice to learning essential therapeutic skills, running a great meeting, becoming a super supervisor, and delivering a memorable presentation, all people skills are included in one place for the behavior practitioner. This is a valuable resource for undergraduate and graduate students studying Applied Behavior Analysis (ABA) and will also appeal to recent graduates and behavior analysts looking to improve their existing skillset.

Perspectives on Flourishing in Schools Sabre Cherkowski, Keith Walker, 2018-08-15 This book provides perspectives and insights across the educational system for how we might move toward living out this wish in all schools. The chapters provide perspectives on fundamental questions that have been guiding recent research on wellbeing in schools: How do school communities flourish together? How does supporting educator wellbeing connect to teaching/learning leading in schools? What characteristics, qualities, and strategies support the wellbeing of the whole school community? This book is unique in that it answers these questions from the perspectives of teachers, students, administrators in K-12 schools as well as from university and the wider community. Importantly, these chapters provide a repertoire of varied answers to the question that underpins this shift in research toward a positive organizational perspective: How can we leverage what works well to grow more to instill in each community member a sense of their value and capacity to contribute? These chapters serve as examples, invitations, and inspiration for readers to notice in their own contexts ways they can grow wellbeing through a focused attention on building appreciative strengths-based positive approaches to teaching, learning, and leading in all
