Lecho Des Morts:

France and "Indochina" Kathryn Robson, Jennifer Yee, 2005-01-01 At the intersection of literary cultural and postcolonial studies this volume looks at French perceptions of Indochina as they are conveyed through a variety of media including cinema literature art and historical or anthropological writings The volume is long awaited as France s memory of Indochina is understudied compared to its relationship with its former colonies in West and North Africa The book has contemporary urgency as the makeup of France s immigrant population changes and grows to include Vietnamese Cambodian and Laotioan populations
