

A dramatic scene of Roman legionaries in battle. In the foreground, a legionary in a detailed metal helmet and scale armor is seen from the side, holding a sword. Behind him, another legionary is visible. To the right, another soldier in similar armor is shown. The background is a bright, hazy sky with a warm orange and yellow glow, suggesting a sunrise or sunset. The overall atmosphere is one of intense action and historical authenticity.

Bunson, 2014-05-14 Not much has happened in the Roman Empire since 1994 that required the first edition to be updated but Bunson a prolific reference and history author has revised it incorporated new findings and thinking and changed the dating style to C E Common Era and B C E Before Common Era For the 500 years from Julius Caesar and the Gallic Wars in 59 51 B C E to the fall of the empire in the west in 476 C E he discusses personalities terms sites and events There is very little cross referencing *Augustus at War* Lindsay Powell, 2016-09-30 A penetrating assessment of Augustus as ancient Rome s

military commander in chief The words Pax Augusta or Pax Romana evoke a period of uninterrupted peace across the vast Roman Empire Lindsay Powell exposes this as a fallacy Almost every year between 31 BC and AD 14 the Roman Army was in action somewhere either fighting enemies beyond the frontier in punitive raids or for outright conquest or suppressing banditry or rebellions within the borders Remarkably over the same period Augustus succeeded in nearly doubling the size of the Empire How did this second rate field commander known to become physically ill before and during battle achieve such extraordinary success Did he in fact have a grand strategy Powell reveals Augustus as a brilliant strategist and manager of war As commander in chief imperator he made changes to the political and military institutions to keep the empire together and to hold on to power himself His genius was to build a team of loyal but semi autonomous deputies legati to ensure internal security and to fight his wars for him while claiming their achievements as his own The book profiles more than 90 of these men as well as the military units under their command and the campaigns they fought The book is lavishly illustrated with 23 maps 42 color plates 13 black and white figures and five order of battle schematics With a foreword by Karl Galinsky this book breaks new ground in explaining the extraordinary achievement of Caesar Augustus **The Legionary** Peter

military machine was pre eminent in ancient times projecting power across the known world over a vast chronology and an increasingly huge and diverse geography One of the most powerful instruments of war in the history of conflict it proved uniquely adept at learning from setbacks always coming back the stronger for it In so doing it displayed two of the most important traits associated with the world of Rome Firstly grit that key ability to remain steadfast and to overcome adversity even in the most challenging of circumstances as faced for example by the Republic in the Second Punic War against Hannibal Secondly the ability to copy the successful technical and tactical innovations of their enemies enabling the Roman military to always stay one step ahead of its opponents on campaign and in battle In this grand tour covering every aspect of the Roman military leading expert Dr Simon Elliott first provides a detailed background to the Roman Republic and Empire to provide context for all that follows He then looks specifically at the Roman military in its three key chronological phases the Republic the Principate Empire and the Dominate Empire Next he forensically examines specific instances of the Roman military on campaign and in battle and of its engineering prowess Finally he investigates the many enemies faced by the Roman Republic and Empire This all provides a firm structure to enable the reader to come to grips with this incredible military machine one whose exploits still resonate in the world to this very day **The Times History of the War** ,1921
