Over the past several decades, the English language has become increasingly globalized, and it is now seen by many as the dominant language in international finance, science, and politics. Concurrent with the worldwide spread of English is the decline of foreign language learning in English-speaking countries, where monolingualism—the use of a single language—remains the norm.

Carefully read the following six sources, including the introductory information for each source. Then synthesize information from at least three of the sources and incorporate it into a coherent, well-developed essay that argues a clear position on whether monolingual English speakers are at a disadvantage today.

Your argument should be the focus of your essay. Use the sources to develop your argument and explain the reasoning for it. Avoid merely summarizing the sources. Indicate clearly which sources you are drawing from, whether through direct quotation, paraphrase, or summary. You may cite the sources as Source A, Source B, etc., or by using the descriptions in parentheses.

Source B (Thomas)
