Loom knitting is a type of knitting that is done on a loom. The loom is a device that consists of a series of horizontal wires that are stretched between two vertical posts. The knitter sits in front of the loom and uses their feet to move the yarn back and forth between the wires. This process is called knitting. There are many different types of loom knitting but the most common are knitting on a circular knitting loom and knitting on a double pointed knitting loom. Knitting on a circular knitting loom is done by knitting two loops at a time. You then turn the loom so that the new loop is on the right hand side of the old loop and knit the new loop. Knitting on a double pointed knitting loom is done by knitting two loops at a time and then passing the two loops over the needle and pulling them through the first loop. Loom knitting is a fun and easy way to create a wide variety of textiles and accessories. It is a great way to improve your dexterity and hand eye coordination and it can be used to create a variety of objects.
