Lectures T Autour Du Politique:

Lectures, t. 1. Autour du politique Paul Ricoeur, 2014-03-25T00:00:00+01:00 Parallèlement ses ouvrages de philosophie fondamentale dont *Soi-même comme un autre* représente actuellement la dernière tape Paul Ricoeur n'a cessé de publier des articles dans des revues mais aussi des préfaces dont les vertus pédagogiques n'enlèvent rien l'acuité de la pensée. Lectures 1 inaugure une série de trois volumes destinés reprendre ces textes jusqu'alors dispersés. Chacun d'entre eux portera sur un domaine privilégié par l'œuvre de Paul Ricoeur : le pouvoir et le politique Lectures 1 le récite et la politique Lectures 2 la question du mal et les rapports philosophie théologie Lectures 3 Dans Lectures 1 le lecteur retrouve les figures philosophiques qui ont accompagné la pensée politique de Paul Ricoeur depuis l'après-guerre : Karl Jaspers, Hannah Arendt, Eric Weil et Jan Patocka. À côté d'analyses centrées sur le paradoxe politique et le mal totalitaire, l'auteur d'*Histoire et Vérité* discute galement les réflexions portant sur la justice sociale au sein des démocraties, ce qui lui donne l'occasion de débattre avec John Rawls. L'auteur d'articles qui ne s'est pas contenté de discuter avec d'autres auteurs, se heurte aux interrogations dont le citoyen du XXe siècle a la hantise : commencer par celle de l'intolérance et de l'intolérable. De même, il s'est obligé à penser l'avenir, ce dont témoignent des pages sur la Chine, Israël, mais aussi des propositions pour l'Université. Ce premier recueil permet ainsi de prendre la mesure d'une philosophie profondément politique d'une pensée soucieuse de la Cité. **Political Education in the Anthropocene** Nathanaël Wallenhorst, Renaud Hétier, Jean-Philippe Pierron, Christoph Wulf, 2023-10-19 This book articulates an educational theory as well as a political theory of the Anthropocene. Divided into three sections, it addresses educational anthropology, cultures and institutions, and educational recommendations in the Anthropocene. Topics covered in the volume measure the impact of the idea of the Anthropocene on the type of anthropology that underlies education and on a phenomenology of relationship. It links the notion of the Anthropocene with cultures and institutions so as not to smooth out or erase the latter. Finally, it presents proposals and recommendations for educational practices. The work advocates rethinking education as an essential component in ensuring the sustainability of human life in society by proposing to go beyond the approach of education for sustainable development or environmental education. The work also brings together empirical contributions in which proposals are elaborated for programs, pedagogical devices, and experiments relating to the preparation of the future in the field of education. This volume is of interest to researchers of the Anthropocene. **Revue du droit public et de la science politique en France et à l'étranger**, 1992 **Foucault 2.0** Eric Paras, 2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault, one of the 20th century's most influential thinkers. In this lucid and groundbreaking work, Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised. Foucault's critical axes of power and knowledge, which purposefully eradicated the concept of free will, reappear as targets in his later work. Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience. He is the first to show a transformation that not

only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 20 draws on the full range of the philosopher's writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault's published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the Collège de France for more than a decade At the same time Foucault 20 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike
