

License plate inspection

Make sure the license plate is secure on the motorcycle and is in plain view. Make sure any other required inspection labels or tags are positioned as required by law.

Damaged items or needed repairs

Should you discover any damage to your motorcycle, or that the motorcycle is in need of repair, take action to have it serviced immediately. Keeping your motorcycle in proper working condition is essential for your safety and for maintaining the value of your vehicle.

Lubrication point check

Visually check that all of the motorcycle's lubrication points have been lubricated properly.

Starting the engine

Always follow the proper starting procedure as described here.

NOTE: Your motorcycle is equipped with a side stand ignition cutoff system. The engine cannot be started if the side stand is down. A running engine will shut off if the side stand is lowered.

WARNING

Your motorcycle's exhaust emits poisonous carbon monoxide gas. High levels of carbon monoxide can collect rapidly in enclosed areas such as a garage. Do not run the motorcycle's engine with the garage door closed. Even with the door open, run the engine only long enough to move your motorcycle out of the garage.

CAUTION

To prevent damage to the starter motor, do not operate the starter motor for more than five seconds at a time. If the motorcycle fails to start immediately, check the fuel level and the battery condition, and allow the starter motor to cool before attempting to start the engine again.

NOTE: Always check the engine oil level and the fuel level **BEFORE** attempting to start your motorcycle's engine.
