Mind Master The The Tentacles From Below:

The Mind Master and the Tentacles from Below Arthur J. Burks, Anthony Gilmore, 2014-12-03 Armchair Fiction presents extra large editions of classic science fiction double novels The first novel Arthur J Burks The Mind Master is a sequel to one of the most popular stories to ever grace the pages of Astounding Stories Manape the Mighty which appeared in the magazine s June 1931 issue In the original Manape tale protagonist Lee Bentley and his sweetheart Ellen Estabrook were subjected to the psychotic desires of one of pulp fiction s great maniacs the mad scientist Professor Caleb Barter who eventually drugged Bentley and transplanted his brain into an ape After escaping from Barter s jungle of horror in the original story Bentley and Estabrook head home to New York City which is the setting for The Mind Master We soon learn that the good professor is still very much alive He is now equipped with new devices of terror including heat rays disintegrator rays and brain implants that allow him to control the human mind at great distances The only question remaining is whether Bentley and Extabrook can escape from his mad plans a second time This edition s second novel is The Tentacles from Below In this classic tale from science fiction s golden years a terrible undersea menace is wreaking havoc off the Newfoundland banks Commander Keith Wells and the crew of his new advanced submarine the NX 1 investigate a series of deep sea cataclysms that are literally tearing up the ocean floor and causing massive changes to hundreds of miles of ocean bed But their investigation soon turns into a rescue mission when a nearby fleet of fishing boats suddenly vanishes into thin air during calm seas For Wells and the crew of the NX 1 these incidents are a prelude to something far more dangerous though Below the sea is the menace of a newly discovered race a race of tentacled creatures the likes of which man has never seen before These creatures along with their army of machine fish have very unfriendly designs on the world of man

Exiles from Below Neil R. Jones, 2011-06-10 Another adventure of the intrepid Professor Jameson Excerpt Professor Jameson clung more tightly to his precarious perch on the sloping mountainside His metal tentacles curled about treacherous knobs of slippery rock His mechanical eyes circling the coned metal head regarding Gloph the intelligent space creature who too fought for his life against the face of the looming peak Around them shone the stars of space and several little moons moved visibly in ever changing phases Out of the darkness a blazing sun threw sharp etched shadows all about them Far beneath them they saw the haze of the planet s low lying dense atmosphere up out of which the towering mountains reached beyond and into space a bleak region a veritable top of the world where only Gloph and his species lived The space ship of the Zoromes was gone It had fallen when a part of the mountain peak had slid away Weathering had weakened the mountain peak beneath the atmosphere line The professor remembered 65G 849 remarking about this characteristic as they had approached and examined the strange world from out in space There is no weathering on the mountain tops in space other than what results from temperature changes when the sun shines 65G 849 had assured his fellow Zoromes It is different however below the atmosphere line Because of the presence of atmosphere and moisture a good many of the mountain peaks

are undermined around the edges Besides the space ship and those inside it the five machine men who had come out of the space ship with the professor to talk with friendly space creatures had gone hurtling to their doom The professor had seen 6W 438 119M 5 29G 75 777Y 46 and 7H 88 grab frantically for something to stay their plunge Only the professor and 119M 5 had been successful in gaining a hold and 119M 5 s respite had been but a brief one The machine man s hold on the slippery surface had been even more insecure than the professor s 119M 5 had shot by the professor radiating a departing farewell Among the group of space creatures accompanying the machine men all had fallen too except Gloph who with the professor and 119M 5 had been farthest from the edge of the great break Before the catastrophe the space creatures had formed a funeral cortege in the performance of strange rites for the two of their dead and the machine men had watched At the climax of the rites it was the custom the machine men had learned to hurl the two dead bodies off the precipice and into the atmospheric sea far below It was never just one There always had to be two Professor Jameson looked across at Gloph and envied the latter s soft shaggy feet which gave him some measure of support in avoiding the inevitable Are you all right he radiated For the moment the long thin creature with the luminous eyes formed the thought But I can get nowhere from here He gazed up helplessly at the steep slope they were on His four long arms clung to scanty holds on the steep face of the mountain four shaggy hooves settled against uneven spots on the slippery rock while the long gray body hugged the wall closely We can t get up farther the machine man told him If we could only climb down It would be easier to climb if we were below the atmosphere line

Science Fiction Magazine Story Index, 1926-1995 Terry A. Murray, 1999 Since the appearance of the first science fiction magazine in 1926 thousands of short stories have been published in periodicals devoted to the genre These stories cover a wide range of subjects from spacecraft to the human condition and feature little known authors as well as masters like Ellison and Asimov In the past finding which issue of what magazine ran a certain story was nearly impossible This much needed reference tool provides valuable assistance in the daunting task of locating short stories published in science fiction magazines providing exhaustive indexes to magazines authors and titles allowing a variety of options for research on 34 000 stories appearing in nearly 5 000 issues of 133 genre magazines Stories from all major American publications as well as from several minor periodicals are indexed Also included is an appendix of the best known and most prolific contributors giving the titles of all their stories in this work necessary because the huge author index does not show titles A guide to how to use this book clarifies its features for the researcher

The Dark Crusade Walter H. Hunt, 2005-08 The Dark Path introduced a new alien force into the delicate balance of power one that was the actual puppetmaster of the human zor war and now wishes to bring both worlds under its madness inducing shadow while The Dark Ascent brought into focus a secret conspiracy that is disrupting the balance of

power on both a military and metaphysical level But the same ancient philosophy of the zor race that prophesized the Dark Wing has also foreseen a hero that will meet the new menace a hero now mystically embodied in a rebellious space commodore by the name of Jackie Lappierre Now in The Dark Crusade as armadas clash and outposts fall the overly confident alien menace is forced to confront a zor human alliance that has been warned their covert and insidious plans of infiltration now exposed but all is not as it seems to be The vuhl menace may not be the ultimate enemy and the all powerful puppetmasters that have lurked in the shadows have entered the endgame where the mysteries of alien prophecies may have already determined the outcome Though victory is hardly ascertained for either side in The Dark Crusade in a page turning and thought provoking climax that will forever alter the fate of sentient life in the galaxy *The Theosophical Path*
