[Teaching Principles of Microeconomics](#) Mark Maier,Phil Ruder,2023-01-06 Abundant with practical advice and ready to use teaching examples this dynamic guide will help both new and experienced instructors of Principles of Microeconomics to reconsider and refine their

courses Mark Maier and Phil Ruder assemble the wisdom of 25 eminent scholars of economic education on how best to introduce students to the discipline and inspire a long lasting passion for microeconomics Handbook of Research on Applying Universal Design for Learning Across Disciplines: Concepts, Case Studies, and Practical Implementation Fovet, Frederic, 2021-01-22 Universal design for learning UDL has been hailed for over a decade as a revolutionary lens that allows campuses to shift their efforts to create inclusive environments In recent years UDL has gone beyond the field of disability and been explored with regards to international and indigenous students There is now a sizable body of literature that details the benefits of implementing UDL in higher education as well as a number of emerging studies examining the strategic challenges of developing UDL across institutions There is however still a relative paucity of research discussing the transformation of instruction or assessment in concrete terms Therefore there is a necessity for research and information on UDL that has already been implemented in classrooms and the practical examples of what this process of transformation looks like The Handbook of Research on Applying Universal Design for Learning Across Disciplines Concepts Case Studies and Practical Implementation offers practical examples of UDL having successfully been embedded in courses within various disciplines and classroom formats as well as across the undergraduate and graduate sectors The chapters provide case studies and concrete examples of what the UDL reflection on practice might look like in specific faculties and departments While highlighting UDL in areas such as educational technology student engagement assignment design and inclusive education this book is ideally intended for inservice and preservice teachers administrators teacher educators higher education professors and leaders practitioners researchers academicians and students interested in the integration of UDL into strategic academic plans *The Politics of Digital India* Pradip Ninan Thomas, 2019-07-11 Transforming India into a digital state has been an objective of successive governments in India However the digital by its very nature is a capricious multi dimensional entity Its operationalization across multiple sectors in India has highlighted the fact that the digital compact with publics in India is a two edged sword On the one hand devices such as mobile phones have enabled access and efficiencies and on the other they have increased the scope for surveillance capitalism and the expansion of governmentality The digital is at the same time a resource commodity and process that is absolutely fundamental to most if not all productive forces across multiple sectors As a part of the Media Dynamics in South Asia series this volume explores the making of digital India and specifically deals with the contradictions of an imperfect democracy internal compulsions and external pressures that continue to play crucial roles in the shaping of the same Mindful of the key roles played by political economy and context and based on conversations with theory and practice it makes a case for critical understanding of the digital embrace in India Being Human in STEM Sarah L. Bunnell, Sheila S. Jaswal, Megan B. Lyster, 2023-07-03 For all STEM faculty chairs administrators and faculty developers who work to support students learning and thriving in STEM especially those students who have felt unwelcome and unsupported in their past STEM experiences this book offers sustainable strategies that are

now being widely adopted to create inclusive environments in undergraduate STEM classes and programs Further this book presents a framework for partnering with students to collaboratively envision how STEM can be a space that fosters a sense of belonging for and promotes the success of all individuals in STEM This book presents the Being Human in STEM Initiative or HSTEM as a model for challenging the assumptions we make and how we communicate to students about who belongs and who can thrive in STEM This work arose out of a time of conflict at Amherst College A four day sit in protesting in support of the Black Lives Matter movement and bringing attention to related experiences of exclusion and marginalization that minoritized students experienced on campus What emerged from that conflict has been transformative for the college its students and for its faculty and staff In this book the authors share how the HSTEM course came into being offer a course overview readings and resources for developing an HSTEM course at your own institution provide recommendations for evaluating the multi level impact of inclusive change initiatives and profile models of how the HSTEM course has been adapted at colleges and universities across the country In addition to providing a road map for developing your own HSTEM course the authors articulate ways that you can make any course or institutional structure more inclusive through active listening and validation and through reflective practice and partnership to progressively make incremental and sustainable changes in STEM education Through listening and reflecting the model facilitates uncovering the disconnects that can impede inclusivity in our classrooms and laboratories While the authors offer a proven process and model for change originally motivated by the urgent need to respond to students demands they recognize that larger institutional culture shifts require the identification and commitment to common values a shared sense of purpose in the work of change and the provision of agency and resources to individuals tasked with making change happen How might we shift institutional STEM culture The HSTEM model provides one solution By reflecting on our own lived experiences and identities engaging with the literature on the factors that enhance and limit full inclusion in STEM and partnering with students to identify actionable ways to bring about sustainable change in our scientific communities we can all work towards creating a more inclusive and human STEM ecosystem Each chapter opens with a set of guiding reflective questions to help you connect these ideas frameworks and strategies to your own teaching and institutional context While each chapter builds on the previous ideas and frameworks the book can also be used as a resource to identify a just in time strategy to address particular questions you may have about making your teaching more inclusive The appendices offer an array of Facilitator Guides each of which outlines a student endorsed exercise based on the pedagogical literature that can foster a sense of belonging and inclusion in your classrooms and laboratory spaces
