Manorama Yearbook 2015:

Manorama Year Book, 2015 Mammen Mathew, 2014 *Manorama Year Book*, 2007 Reshaping India in the New Global Context Subhash C. Jain, Ben L. Kedia, 2017-10-27 This book traces the history of India's progress since its independence in 1947 and advances strategies for continuing economic growth. Insiders and outsiders that have criticized India for slow economic growth fail to recognize all it has achieved in the last seven decades including handling the migration of over 8 million people from Pakistan, integrating over 600 princely states into the union, managing a multi language population into one nation and resolving the food problem. The end result is a democratic country with a strong institutional foundation. Following the growth strategies outlined in the book and with a strong leadership, India has the potential to stand out as the third largest economy in the world in the next 25 to 30 years. Subhash Jain and Ben Kedia delve into India's development and emergence as an economic power, one of the three countries that can make its own supercomputers, one of the six countries that can launch satellites, and that has the second largest small car market in the world. They discuss its need for innovative initiatives and top leadership to pursue an agenda of economic growth and monitored policies to encourage entrepreneurship at all levels. With an emphasis on the new leadership of Prime Minister Modi, the book identifies policies that need to be adopted to make India's future bright and prosperous. This book is a critical resource for students and scholars interested in India and invested in its progress, as well as policymakers, government officials, and corporations considering India as a place to expand and do business.

The Future of Migration to GCC Countries Françoise De Bel-Air, Nasra M. Shah, 2025-11-21 This book provides an in depth exploration of the evolving trends in South South international migration to the Gulf Cooperation Council (GCC) countries. It presents a comprehensive analysis of migration dynamics from the perspectives of nationals, non nationals, policymakers, and prospective migrants. It highlights the multifaceted factors driving migration to the Gulf, including the transition from oil dependent economies to knowledge based industries and the shift from a reliance on low wage migrant workers to the integration of highly skilled expatriates. It emphasizes the Gulf states as strategic destinations for the Arab and Asian middle classes, shaped by global dynamics such as the gig economy, cultural compatibility, and socio economic instability in migrants' countries of origin. Furthermore, the book offers a critical assessment of migration policies, focusing particularly on the inadequacies in safeguarding low paid migrants while challenging the prevailing notion that migration to the Gulf is temporary and primarily economically driven. Through an examination of new employment patterns, migration flows, and concepts of transnationalism, the book interrogates the future trajectories of Gulf societies. It is an indispensable resource for scholars interested in the region's transitions and future prospects.

Weighed down by the gains: India's twin double burdens of malnutrition and disease Oommen C Kurian, Shoba Suri, 2019-05-21 Given its continent like diversity, India's epidemiological, nutritional, and demographic transitions are occurring in a staggered fashion with high state level variances. In many parts of the country, high rates of undernutrition co

exist with equally high and increasing rates of overweight and obesity Further the incidence of non communicable diseases NCDs as a leading cause of mortality is increasing even as the communicable maternal neonatal and nutritional causes or the Millennium Development Goals MDG conditions are coming down Indeed India has witnessed inconsistent progress towards the MDGs and even in states where absolute levels of MDG conditions are still high the NCD proportion is growing rapidly The imperative is for a realignment of policy responding to fast changing subnational realities through greater integration between health and nutrition policy at every level of governance

6G Networks and AI-Driven Cybersecurity Shaikh,

Riaz Ahmed,2025-07-23 The most recent developments in 6G networks combined with artificial intelligence AI might be utilized to improve cybersecurity While AI provides solutions to various problems in cybersecurity it also introduces challenges in data privacy It is important to explore the development of AI driven security solutions to keep up to date and stimulate further innovation in the field of cybersecurity Future trends and innovations should be examined as 6G networks continue to develop 6G Networks and AI Driven Cybersecurity provides insights into the convergence of 6G AI and cybersecurity It bridges the gap between theoretical research and practical applications promoting collaboration between academia and industry through connecting theoretical research with practical applications Covering topics such as threat response decision making and machine to machine communication this book is an excellent resource for cybersecurity practitioners computer scientists industry professionals policymakers professionals researchers academicians and more

People, Spaces and Places in Gendered Environments Vasilikie (Vicky) Demos,Marcia Texler Segal,2024-06-03 Demonstrating how women and other marginalized groups respond to the limits and options imposed by the history and structure of spaces this volume envisions a world beyond colonial able bodied class and patriarchal limitations where freedom of movement functions for all
