The Sun

Did you know that the sun is a star? It is a really big star made of hot gas and is about 10,000 degrees hot.

The sun is actually the closest star to the earth. The sun is what keeps us warm on the hot days. The sun is the biggest thing in space.

The sun gives us seasons.

There are some dark areas on the sun called sunspots. These are colder than the sun.

Language Arts Solar System Lessons:

One Hundred One Internet Activities Courtney Binter Kelly, 2001 **A Ton of Crap** Paul Kleinman, 2011-10-15 It's time to start taking toilet time a little more seriously. Well, as seriously as you can with your pants around your ankles. What's inside is a digestible re-education in everything you probably learned but most likely forgot because you have too much crap to remember. Don't worry though; the way the information's presented, the learning won't be too rough. During every visit, you'll be schooled on five academic subjects: History, Language Arts, Math, Science, and Foreign Language. Each subject is broken down into topics, with each topic split into six mini-lessons and finished off with a quick quiz. Think of each restroom trip as a day of middle school crammed into one bathroom break. Now, rather than idle away as you do your business, you'll be treated to a first-class education that finishes when you flush and picks up again when you sit back down. **Learn & Use Inspiration in Your Classroom** Erin K. Head, 2007-07-24 Integrate technology into four content areas: language arts, science, social studies, and math by using *Inspiration in your classroom*. Learn & Use Digital Audio and Podcasting in Your Classroom Cindy Carson, 2009 Seamlessly integrate technology into your classroom instruction with this new series. It features user-friendly technical support for accessing the digital components. It also includes instructions on how to easily access the digital index that allows users to sort passage titles by content area, genre, and reading level. Space Space Space Gr. 1-3 Vera Trembach, 2014-05-14 Space is an introduction to the mysteries of the Universe. Included are Task Cards for independent learning, Journal Word Cards for creative writing, and Hands-On Activities for reinforcing skills in Math and Language Arts. Space is a perfect introduction to further research of the Solar System. Students will learn about the following topics: The Universe, The Solar System, The Sun, The Moon, Other Moons, Stars, Comets, and Constellations.
