

New Slot Machine Shows Sound Films

SOUND - MOVIE cabinets, operated by dropping a coin in a slot, and quickly installed anywhere, offer a new form of entertainment for railroad stations, lunch rooms, and other public places. Sponsors of half a dozen makes, already in use or nearly ready for production, expect them to compete in popularity with the coin-operated phonographs now in vogue. A typical model is shown at right, with James Roosevelt, watching one of the reels his film company has made for it. Using sixteen-millimeter film, it presents a three-minute program, the pictures being projected on a small screen at the front. One maker proposes a more ambitious sort of installation. From a suitably located cabinet in a restaurant, a system of mirrors would convey the images so that they could be viewed by occupants of every booth in the establishment.

James Roosevelt viewing pictures on a new "Talkie" automat
