3. N Looking away while someone is talking

4. P Leaning forward in a chair

1. Identify the barrier to communication occurring here and suggest a way to avoid it.

There are two barriers here: The first is that if the NA thought that the resident was in pain, the first question should have been, "Where are you in pain?" The second barrier was that she should have waited patiently for the resident to respond, "Immediately gathering up her supplies without even spending the time to find out if the pain existed and where it was, was negligent."
