## **Larsen Move By Move:**

**Larsen:** Cyrus Lakdawala, 2015-01-07 Bent Larsen was one of the most influential chess players of the 20th century. He was a four-time Candidate for the World Championship and the first westerner to seriously challenge the Soviet Union's post-war dominance of the game. Larsen was admired by fans for his creative and combative style. He was a risk taker who always sought complex positions. He felt completely at home in defense and was an opportunistic attacker. While other grandmasters would shy away from offbeat openings, Larsen would embrace and develop them. In this book, former American Open Champion Cyrus Lakdawala studies his favourite Larsen games and examines Larsen's skills in the key areas of attack and defense, initiative, exploiting imbalances, accumulating advantages, and endgame play. He demonstrates clearly how we can all improve by learning from Larsen's play. **Move by Move** provides an ideal platform to study chess. By continually challenging the reader to answer probing questions throughout the book, the **Move by Move** format greatly encourages the learning and practicing of vital skills just as much as the traditional assimilation of knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to improve your chess skills and knowledge. Learn from the games of a chess legend. Important ideas absorbed by continued practice. Utilizes an ideal approach to chess study.

**Larsen:** Cyrus Lakdawala, 2014-11 Cyrus Lakdawala studies his favorite Bent Larsen games. He examines Larsen's skills in attack, defense, counter-attack, exploiting imbalances, and endgame play and demonstrates how we can all improve by learning from Larsen's play.

**Opening Repertoire:** Cyrus Lakdawala, 2019-03-07 The French Defence provides a good choice for players who want to create a dynamic unbalanced situation out of the opening but balk at the level of study required to master the ferociously complex Sicilian Defence. The French is one of Black's soundest defences to 1 e4 and is very popular at all levels. White often advances with the space-gaining e4-e5, which in principle will generate a small advantage. However, when this structure arises, there are no clear points to attack in the black camp, and Black has ready-made plans in the form of c7-c5 and f7-f6 moves that seek to undermine the white centre. In this book, renowned author Cyrus Lakdawala creates a repertoire for Black and navigates through the main lines of the French, providing the reader with well-researched, fresh, and innovative analysis. Each annotated game has valuable lessons on how to play the opening and contains instructive commentary on typical middle-game plans. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. Presents a complete French Defence repertoire for Black. Thorough explanations of typical pawn structures and piece manoeuvres. Utilizes an ideal approach to chess study.
