Barnes, 1968 *Atlas and Manual of Plant Pathology* E.H. Barnes, 2012-12-06 Ideally a textbook should integrate with the lectures and labs in a science course Selecting such a book can be an onerous and sometimes impossible task for the teacher Students are wary of getting stuck with a useless book i.e. one to which the instructor never refers The reader probably has some practical appreciation of their concern I remember an instructor who not only denounced the very text he had chosen but also informed the class that he wouldn't be using it This was after I had already purchased a copy Being mindful of the foregoing I decided to try Barnes Atlas and Manual of Plant Pathology in 1973 Six years and 800 students later I have no regrets about my choice As far as I am concerned it is still the finest book of its kind on this continent Barnes Atlas contains an excellent blend of the diagnostic and experimental aspects of plant pathology His treatment of each disease on an individual basis allows the instructor to omit some pathogens without disturbing the book's continuity My one semester course in Forest Pathology is largely descriptive Strong emphasis is placed on field recognition of symptoms and signs This is facilitated by Barnes technique In a sequence of photographs the diseased plant or part is first viewed as a whole to show the general symptoms This is usually followed by a close up of the signs i.e. **Principles of Plant Pathology** Charles Elmer Owens, 1924 *Principles of Plant Pathology* Charles Elmer Owens, 1928 Modern plant pathology Definition symptoms and classification of plant diseases Methods of investigating plant diseases Plant diseases as related to environment Plant diseases control General statement Fungicides Disease free seed and nursery stock Quarantine and inspection Sick soil Disease resistance in plants Relation of Insects to plant diseases Diseases caused by slime Molds Diseases caused by bacteria Disease caused by fungi phycomycetes Diseases caused by fungi ascomycetes Diseases caused by fungi basidiomycetes Diseases caused by fungi imperfecti Diseases caused by algae Diseases caused by parasitic seed plants Diseases caused by nematodes Virus diseases Non parasitic diseases **Laboratory Manual Of Plant Pathology** Vinod Kumar Jain, 2009 *Plant Pathology* J.
