

MANUAL HANDLING

LIFT WITH YOUR LEGS
KEEP YOUR BACK STRAIGHT
KNOW YOUR LIMITS

ASSESS your task FIRST

ASK: Can you fit your arms over the load? Clear any obstacles from your path and know where obstacles will be in an unclear path.

Position your feet apart

Ensure your legs are shoulder width apart for maximum support. Walk in small steps to maintain shoulder width placement.

TIGHTEN your abs

Using your core abdominal muscles will hold you in the proper lifting position and reduce strain on your spine.

LIFT with your LEGS

Bend at the knees & hips not your back - Your leg muscles are stronger than your back and can withstand greater force. This is known as the Sore Shout Technique (Frog Lift).

Keep your back STRAIGHT

When you keep your back straight (neutral) your legs carry the majority of the weight making you less likely to injure your back.

HOLD the object at waist level and close to the body

Your arms and your back are better equipped to lift a heavy object at waist level and closer to your body than at any other height, similar to how your body.

Avoid lifting overhead or from below knee height

The risk of injury increases when objects are lifted from overhead or below knee height. Avoid carrying objects at these heights when possible.

Don't BEND or TWIST while you are lifting or carrying

Improper bending or twisting could throw you off balance or cause injury.

Use lifting aids

When possible use mechanical aids or get help to lift or carry a heavy load whenever possible. Options include: strapping, conveyor belts, trolleys, cranes or forklifts.

REDUCE the size of the load when possible

When possible reduce the size of the load or object or make smaller but more frequent trips, e.g. stretch a heavy load into smaller sections.

Two person lifts

When lifting with two or more people ALWAYS ensure people of same size and strength for manual handling tasks.

LIMIT

KNOW your limits!

Ask for help. If you cannot lift an object, don't. Even if the object is not heavy, if it is extremely large or unstable, it can be difficult to lift. It is better to ask and ask for assistance than to try and lift something that could potentially cause injury.

Audiovisuals on Personnel Supervision 1970-1986 Janet H. Edmonds, 1988 *Tourism in Northern Ireland and its economic impact and benefits* Great Britain:

Parliament: House of Commons: Northern Ireland Affairs Committee,2007-03-15 The Committee s report examines the nature of tourism in Northern Ireland its impact on and importance for the overall economy and the effectiveness of measures taken by Government and other relevant agencies to develop promote and support the marketing of Northern Ireland as a tourist destination The Committee s recommendations are addressed to the Northern Ireland Office which took back responsibility for tourism in Northern Ireland when the power sharing executive was suspended in October 2002 but if a power sharing executive is re established then responsibility for tourism will revert to the restored Executive and accordingly responsibility for scrutiny of this policy area would revert to the Committees of a restored Assembly The Committee s report makes 27 recommendations to help Northern Ireland maximise its tourist potential and concludes that if government recognises the enormous economic impact of tourism and if private enterprise in co operation with statutory bodies can develop this recognition into a coherent strategy there is no reason why the success of tourism in the Republic of Ireland should not be replicated in Northern Ireland to the advantage of the whole island of Ireland and with Northern Ireland itself enjoying an equivalent status to Scotland and Wales as a UK tourist destination
