Petitioning Osiris Edward O. D. Love,2022-12-05 Petitioning Osiris re edits re analyses and re contextualises the Old Coptic Schmidt Papyrus and Curse of Artemisia written petitions to different manifestations of Osiris among the Letters to Gods in Demotic Greek and Old Coptic from Egypt The textual traditions of the Letters to Gods to the Dead and Oracle Questions which evidence that ritual tradition of petitioning deities are contextualised among contemporary textual traditions such as Letters and Petitions to Human Recipients and Documents of Self Dedication and compared to later ritual traditions such as proactive and reactive curses without and with judicial features so called Prayers for Justice in Greek and Coptic from Egypt and the Eastern Mediterranean As with all other Letters to Gods the Old Coptic Schmidt Papyrus and Curse of Artemisia evidence not only the struggles and aspirations of their petitioners but also the way in which they conceptualised that they could bring about desired outcomes in their lived experience by engaging divine agency through a reciprocal relationship of human divine interaction Petitioning Osiris therefore provides a starting point and springboard for readers interested in these or comparable textual and ritual traditions from the Ancient World **God, Guns, and Sedition** Bruce Hoffman,Jacob Ware,2024-01-02 Winner 2025 Airey Neave Memorial Book Prize Airey Neave Trust Shocking acts of terrorism have erupted from violent American far right extremists in recent years including the 2015 mass murder at a historic Black church in Charleston and the January 6 2021 attack on the U S Capitol These incidents however are neither novel nor unprecedented They are the latest flashpoints in a process that has been unfolding for decades in which vast conspiracy theories and radical ideologies such as white supremacism racism antisemitism xenophobia and hostility to government converge into a deadly threat to democracy God Guns and Sedition offers the definitive account of the rise of far right terrorism in the United States and how to counter it Leading experts Bruce Hoffman and Jacob Ware trace the historical trajectory and assess the present day dangers of this violent extremist movement along with the harm it poses to U S national security They combine authoritative nuanced analysis with gripping storytelling and portraits of the leaders behind this violence and their followers Hoffman and Ware highlight key terrorist tactics such as the use of cutting edge communications technology the embrace of leaderless resistance or lone wolf strategies infiltration and recruitment in the military and law enforcement and the movement s intricate relationship with mainstream politics An unparalleled examination of one of today s great perils God Guns and Sedition ends with an array of essential practical recommendations to halt the growth of violent far right extremism and address this global terrorist threat **Memo** , *Avoiding War with China* Amitai Etzioni,2017-05-02 Are the United States and China on a collision course In response to remarks made by Donald Trump s secretary of state China s state run newspaper Global Times asserted Unless Washington plans to wage a large scale war in the South China Sea any other approaches to prevent Chinese access to the disputed islands will be foolish

Some experts contend that conflict is inevitable when an established power does not make sufficient room for a rising power In this timely new work renowned professor of international relations Amitai Etzioni explains why this would be disastrous and points to the ways the two nations can avoid war The United States is already preparing for a war with China Etzioni reveals However major differences of opinion exist among experts on the extent of military commitment required and no plan has been formally reviewed by either Congress or the White House nor has any been subjected to a public debate Etzioni seeks here to provide a context for this long overdue discussion and to explore the most urgent questions How aggressive is China How powerful is it Does it seek merely regional influence or regional dominance or to replace the United States as the global superpower The most effective means of avoiding war several experts argue requires integrating China into the prevailing rule based liberal international order Etzioni spells out how this might be achieved and considers what can be done to improve the odds such an integration will take place Others call for containing or balancing China and Etzioni examines the risk posed by our alliances with various countries in the region particularly India and Pakistan With insight and clarity Etzioni presents our best strategy to reduce tension between the two powers mapping out how the United States can accommodate China s regional rise without undermining its core interests its allies and the international order **Federal Register** ,2012-05 *Environmental Fiscal Challenges for Cities and Transport* Marta Villar Ezcurra,Janet E. Milne,Hope Ashiabor,Mikael Skou Andersen,2019 As populations become increasingly concentrated in urban centres and mega cities while demands on transportation continue to grow the question of how to mitigate the environmental footprint of these trends is ever more pressing This comprehensive book demonstrates the potentially significant role of environmental taxation and other market based instruments in meeting these challenges **Give and Take** Shirley Tillotson,2017-11-17 Can a book about tax history be a page turner You wouldn t think so But Give and Take is full of surprises A Canadian millionaire who embraced the new federal income tax in 1917 A socialist hero J S Woodsworth who deplored the burden of big government Most surprising of all Give and Take reveals that taxes deliver something more than armies and schools They build democracy Tillotson launches her story with the 1917 war income tax takes us through the tumultuous tax fights of the interwar years proceeds to the remaking of income taxation in the 1940s and onwards and finishes by offering a fresh angle on the fierce conflicts surrounding tax reform in the 1960s Taxes show us the power of the state and Canadians often resisted that power disproving the myth that we have always been good loyalists But Give and Take is neither a simple tale of tax rebels nor a tirade against the taxman Tillotson argues that Canadians also made real contributions to democracy when they taxed wisely and paid willingly Naval History ,2016 Guide to Microforms in Print ,1996 **Serials Holdings** Linda Hall Library,1974 **Barron's National Business and Financial Weekly** ,1960 Catalogue of the Public Archives Library Public Archives of Canada.
