Energy Research and Power Engineering 2014 W.Y. Fan,G.P. Wang,H.D. Liu,Z.J. Xie,Y.P. Chen,Z.F. Yang,H.C. Wang,2014-07-18 Selected peer reviewed papers from the 2014 International Conference on Energy Research and Power Engineering ERPE 14 May 17 18 2014 Dalian China

Recent Research in Control Engineering and Decision Making Olga Dolinina,Alexander Brovko,Vitaly Pechenkin,Alexey Lvov,Vadim Zhmud,Vladik Kreinovich,2019-01-28 This book constitutes the full papers and short monographs developed on the base of the refereed proceedings of the International Conference on Information Technologies Information and Communication Technologies for Research and Industry ICIT 2019 held in Saratov Russia in February 2019 The book brings accepted papers which present new approaches and methods of solving problems in the sphere of control engineering and decision making for the various fields of studies industry and research ontology based data simulation smart city technologies theory and use of digital signal processing cognitive systems robotics cybernetics automation control theory image recognition technologies and computer vision Particular emphasis is laid on modern trends new approaches algorithms and methods in selected fields of interest The presented papers were accepted after careful reviews made by at least three independent reviewers in a double blind way The acceptance level was about 60% The chapters are organized thematically in several areas within the following tracks Models Methods Approaches in Decision Making Systems Mathematical Modelling for Industry Research Smart City Technologies The conference is focused on development and globalization of information and communication technologies ICT methods of control engineering and decision making along with innovations and networking ICT for sustainable development and technological change and global challenges Moreover the ICIT 2019 served as a discussion area for the actual above mentioned topics The editors believe that the readers will find the proceedings interesting and useful for their own research work

Sustainable Aviation Technology and Operations Roberto Sabatini,Alessandro Gardi,2023-09-12 Sustainable Aviation Technology and Operations Comprehensively covers research and development initiatives to enhance the environmental sustainability of the aviation sector Sustainable Aviation Technology and Operations provides a comprehensive and timely outlook of recent research advances in aeronautics and air transport with emphasis on both long term sustainable development goals and current achievements This book discusses some of the most promising advances in aircraft technologies air traffic management and systems engineering methodologies for sustainable aviation The topics covered include propulsion aerodynamics avionics structures materials airspace management biofuels and sustainable lifecycle management The physical processes associated with various aircraft emissions including air pollutants noise and contrails are presented to support the development of computational models for aircraft design flight path optimization and environmental impact assessment Relevant advances in systems engineering and lifecycle management processes are also covered bridging some of the existing gaps between academic research and industry best practices A collection of research case studies

complements the book highlighting opportunities for a timely uptake of the most promising technologies towards a more efficient and environmentally sustainable aviation future Key features Contains important research and industry relevant contributions from world class experts Addresses recent advances in aviation sustainability including multidisciplinary design approaches and multi objective operational optimisation methods Includes a number of research case studies addressing propulsion aerostructures alternative aviation fuels avionics air traffic management and sustainable lifecycle management solutions Sustainable Aviation Technology and Operations is an excellent book for aerospace engineers aviation scientists researchers and graduate students involved in the field

Shaping Images Thorsten Stephan Beck, 2016-09-12 Images play an outstanding role in the transfer of knowledge They are used in numerous academic disciplines to present scientific results Digital tools such as Adobe Photoshop make it possible to display the information in images brilliantly and clearly at the same time the line between appropriate and inappropriate manipulation is not always easy to draw Scientific journals have published guidelines for handling and editing images but they are not always specific enough to provide clarity for all situations Shaping Images examines how scholars from biology information science art history and design deal with this uncertainty how they process and manipulate images where they see their special potential and how they draw the line between appropriate and inappropriate image manipulation The work also looks at scientific journals and lets selected editors have their say What would have to happen to make it possible to combat image manipulation in science more effectively The book s interdisciplinary approach makes it clear how different the practices are and how different the views are on what should be allowed in the processing of images Images this too is problematized in the book are always a means to a certain end which is precisely why the handling of images should be thoroughly reflected upon

Food Loss and Food Waste Michael Blakeney, Global food insecurity is a growing issue At a time when the world s population is increasing and agricultural production is challenged by climate change it is estimated that around a third of the food produced globally is lost or wasted This book examines the problem of food loss and waste FLW and the policies that could be enacted to remedy this fundamental global concern

The Organization of Information Daniel N. Joudrey, 2025-09-04 Organizing information is at the heart of the information professions and the fifth edition of The Organization of Information is a key resource for anyone seeking up to date guidance For millennia information organization has been central to the functioning of libraries and other information institutions The fifth edition of The Organization of Information provides a timely detailed introduction to organizing in a variety of information contexts including library cataloging archival description indexing museum registration metadata creation for digital collections organizing on the web linked data and the development of the Semantic Web Examining how and why information professionals organize information in contemporary libraries archives museums and in a variety of online settings expert Daniel N Joudrey addresses the types of retrieval tools used throughout information organizations the functionality of information systems and the role and effect of technology on information

organization A discussion of encoding follows explaining the basics of the MARC format several XML schemas and the developing BIBFRAME standard A section on the principles and functionality of metadata covers metadata types metadata characteristics and tools used to manage metadata projects A timely new chapter on conceptual models and frameworks articulates the visions behind the Library Reference Model LRM Records in Contexts RiC and the Semantic Web including a discussion of RDF as its underlying structural model Finally the latter portion of the book describes practices related to the creation of descriptive metadata Providing a thorough overview of the field s major issues challenges and standards The Organization of Information is an essential resource for students in library and information science programs as well as for established professionals who want to refresh their knowledge of the latest developments in the field Machine, Manufacturing, Materials and Information Technology II B. Xu,H.Y. Li,2014-10-27 Selected peer reviewed papers from the 2014 2nd International Conference on Material Engineering and Manufacturing Engineering ICMEME 2014 October 25 26 2014 Beijing China *Concrete Permeability and Durability Performance* Roberto J. Torrent,Rui D. Neves,Kei-ichi Imamoto,2021-12-22 Durability and service life design of concrete constructions have considerable socio economic and environmental consequences in which the permeability of concrete to aggressive intruders plays a vital role Concrete Permeability and Durability Performance provides deep insight into the permeability of concrete moving from theory to practice and presents over 20 real cases such as Tokyo s Museum of Western Art Port of Miami Tunnel and Hong Kong Zhuhai Macao sea link including field tests in the Antarctic and Atacama Desert It stresses the importance of site testing for a realistic durability assessment and details the Torrent Method for non destructive measurement of air permeability It also delivers answers for some vexing questions Should the coefficient of permeability be expressed in m² or m s How to get a mean pore radius of concrete from gas permeability tests Why should permeability preferably be measured on site How can service life of reinforced concrete structures be predicted by site testing of gas permeability and cover thickness Practitioners will find stimulating examples on how to predict the coming service life of new structures and the remaining life of existing structures based on site testing of air permeability and cover thickness Researchers will value theoretical principles testing methods as well as how test results reflect the influence of concrete mix composition and processing
