Understanding Reading Comprehension Wayne Tennent, 2025-11-05 Reading comprehension is a vital part of literacy that all primary school teachers need to understand Drawing from educational and psychological research this book offers a detailed analysis of how reading comprehension happens combined with practical teaching strategies for the classroom This heavily revised second edition explores the underlying linguistic and cognitive processes that support comprehension from inference making to the role of metacognition It builds on this procedural knowledge to examine text selection classroom pedagogy and how to assess comprehension This is essential reading for primary English modules on initial teacher education courses including university based PGCE BA w QTS BEd and school based SCITT Teach First routes into teaching and also for current teachers wishing to further develop their knowledge

Teaching Secondary Mathematics Gregory Hine, Judy Anderson, Robyn Reaburn, Michael Cavanagh, Linda Galligan, Bing H. Ngu, Bruce White, 2021-09-24 Secondary mathematics teachers working in the Australian education sector are required to plan lessons that engage with students of different genders cultures and levels of literacy and numeracy Teaching Secondary Mathematics engages directly with the Australian Curriculum Mathematics and the Australian Professional Standards for Teachers to help preservice teachers develop lesson plans that resonate with students This edition has been thoroughly revised and features a new chapter on supporting Aboriginal and Torres Strait Islander students by incorporating Aboriginal and Torres Strait Islander cultures and ways of knowing into lessons Chapter content is supported by new features including short answer questions opportunities for reflection and in class activities Further resources additional activities and audio and visual recordings of mathematical problems are also available for students on the book s companion website Teaching Secondary Mathematics is the essential guide for preservice mathematics teachers who want to understand the complex and ever changing Australian education landscape

High-Stakes Testing in Education Theo J.H.M Eggen, Gordon Stobart, 2015-10-14 High stakes

educational testing is a global phenomenon which is increasing in both scale and importance Assessments are high stakes when there are serious consequences for one or more stakeholders Historically tests have largely been used for selection or for providing a licence to practise making them high stakes for the test takers Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students results These tests then become high stakes for teachers and schools especially when they have to meet externally imposed targets More recent has been the emergence of international comparative testing which has become high stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries In this book we draw on research which examines each of these uses of high stakes testing The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise To underline the international appeal of high stakes testing the studies are drawn from Australia Africa the Caribbean Europe former Soviet republics and North America Collectively they illustrate the power of high stakes assessment in shaping for better or for worse policy making and schooling This book was originally published as a special issue of *Assessment in Education Principles Policy Practice* [Compendium for Early Career Researchers in Mathematics Education](#) Gabriele Kaiser, Norma Presmeg, 2019-04-26 The purpose of this Open Access compendium written by experienced researchers in mathematics education is to serve as a resource for early career researchers in furthering their knowledge of the state of the field and disseminating their research through publishing To accomplish this the book is split into four sections Empirical Methods Important Mathematics Education Themes Academic Writing and Academic Publishing and a section Looking Ahead The chapters are based on workshops that were presented in the Early Career Researcher Day at the 13th International Congress on Mathematical Education ICME 13 The combination of presentations on methodological approaches and theoretical perspectives shaping the field in mathematics education research as well as the strong emphasis on academic writing and publishing offered strong insight into the theoretical and empirical bases of research in mathematics education for early career researchers in this field Based on these presentations the book provides a state of the art overview of important theories from mathematics education and the broad variety of empirical approaches currently widely used in mathematics education research This compendium supports early career researchers in selecting adequate theoretical approaches and adopting the most appropriate methodological approaches for their own research Furthermore it helps early career researchers in mathematics education to avoid common pitfalls and problems while writing up their research and it provides them with an overview of the most important journals for research in mathematics education helping them to select the right venue for publishing and disseminating their work **Handbook of Accessible Achievement Tests for All Students** Stephen N.
