Mid Year 2013 Geography Grade12:

Assessing English Language Learners: Bridges to Educational Equity Margo Gottlieb, 2016-03-03 Build the bridges for English language learners to reach success This thoroughly updated edition of Gottlieb s classic delivers a complete set of tools techniques and ideas for planning and implementing instructional assessment of ELLs The book includes A focus on academic language use in every discipline from mathematics to social studies within and across language domains Emphasis on linguistically and culturally responsive assessment as a key driver for measuring academic achievement A reconceptualization of assessment as for and of learning Reflection questions to stimulate discussion around how students teachers and administrators can all have a voice in decision making Accountability in education: meeting our commitments UNESCO, 2017-10-30 The second edition of the Global Education Monitoring Report GEM Report presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals With hundreds of millions of people still not going to school and many not achieving minimum skills at school it is clear education systems are off track to achieve global goals The marginalized currently bear the most consequences but also stand to benefit the most if policy makers pay sufficient attention to their needs Faced with these challenges along with tight budgets and increased emphasis on results oriented value for money countries are searching for solutions Increased accountability often tops the list The 2017 8 GEM Report shows the entire array of approaches to accountability in education It ranges from countries unused to the concept where violations of the right to education go unchallenged to countries where accountability has become an end in itself instead of a means to inclusive equitable and high quality education and lifelong learning for all The report emphasizes that education is a shared responsibility While governments have primary responsibility all actors schools teachers parents students international organizations private sector providers civil society and the media 0 3 have a role in improving education systems The report emphasized the importance of transparency and availability of information but urges caution in how data are used It makes the case for avoiding accountability systems with a disproportionate focus on narrowly defined results and punitive sanctions In an era of multiple accountability tools the report provides clear evidence on those that are working and those that are not Back cover **The Report: Abu Dhabi 2015** Oxford Business Group, 2016-05-09 Hydrocarbons revenues still form the bulk of Abu Dhabi s GDP and while falling prices are a concern the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030 The past 10 years has seen the non oil sector expand strongly on the back of business friendly government policies as a result of which non oil sector growth now outpaces that of the oil sector Outside of hydrocarbons construction and manufacturing represent the biggest GDP contributors in the emirate with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth leveraging the emirate s natural resources growing downstream capabilities and strategic location Elsewhere Abu Dhabi s financial sector continues to assert itself and the expected 2015

launch of Abu Dhabi Global Market the UAE's second financial free zone is expected to boost activity in the sector Meanwhile visitor numbers to Abu Dhabi continue to rise with around 3.5m arrivals in 2014 up 25% on the previous year This growth is expected to continue as major infrastructure upgrades continue apace These include the expansion of Abu Dhabi International Airport and the development of the 1200 km wide Etihad rail project
