

## How to Write a History Essay

The essay must be structured properly. The purpose of the structure is to make your ideas as easy to understand as possible.

The title of a history essay will always be a question. If you want to get top marks, everything you write must help to answer this question. Random information is not wanted.

The question will usually require you to decide between two or more extreme responses to the answer

Example: Why did William win the Battle of Hastings?

- Possible response 1. William's skill.
- Possible response 2 Harold's bad luck.
- Possible reason 3 Harold's bad judgement.

You must decide three things.

1. Which answer is the best one?
2. Is it the best answer by a long way or by a little bit?
3. Are there any links between the possible answers?

How do I structure an essay?

Use this simple structure to ensure your essay

- Introduction: Sets out your overall answer to the question. Very briefly explains what will be covered and should at least hint at your overall conclusion.
- Main body: Deals with one point in each paragraph. Follows the layout established in the introduction.
- Conclusion: the most tricky paragraph, but in some ways the least important. Make clear your overall conclusion again, and if you can, deal with what new issues that conclusion raises. If you can't, don't worry about it.

How do I structure a paragraph?

- One point per paragraph only.
- First sentence: explain the main point of the paragraph.
- Support your point, quoting the evidence you have used.
- Qualify your point, using evidence that goes against some part of your main point.
- Last sentence: reaffirm your main point – explain why the evidence that goes against it is less important than the evidence that supports it.

So, your essay and each paragraph in it should each have a three part structure:
