## **Microstructured Polymer Optical Fibres:**

Microstructured Polymer Optical Fibres Maryanne Large, 2007-10 This book provides the reader with a clear overview of the considerable body of research and development work carried out in the last five years on microstructured polymer optical fibres mPOFs It discusses new applications which will be opened up by this emerging technology and includes for the first time details about the fabrication process for these fibres The book provides an excellent introduction to this new technology
