This course is designed to explore the ways music enriches our lives. Through listening, performing, creating, and moving to music, students investigate the many ways humans express themselves through the language of music.

Using the textbook series "Alfred's Essentials of Music Theory" students will gain a basic understanding of music theory (how to identify and write basic music notation). This will provide a foundation for the student's understanding of music in various cultures from around the world. Music theory will encompass 75% of the class time.

By using various audio and visual recordings taken from different regions of the world, students will get a crash course on world music, and how it has influenced popular music today. Students will gain an appreciation for music rooted in different world cultures. They will develop tolerance and respect for various cultures, and gain an understanding of music as a universal language. This will encompass 25% of class time.
