**Adsensory Urban Ecology (Volume One)** Pamela Odih, 2019-03-13 Adsensory sign technology which depicts the human body as both object and subject of inscriptive advertising technologies is integral to a western capitalist insurantal financialisation of health and wellbeing Developing further the theme of adsensory technologies of the sign in conjunction with Daniel Bell's theory of the codification of knowledge as an axial feature of the structuring of post industrial society this book explores gentrification in heterotopic post industrial urban spaces It brings together case studies from London's Grenfell Tower exploring perilous facade refurbishment and London's Garden Bridge project and speculative capital regeneration These studies illustrate empirically the extent to which advertising adsensory technologies have become integral to the gentrification of post industrial urban spaces Several of the case studies engage critically with the empirical observation that in the post industrial urban ecology of inner city regeneration adsensory technologies extend avariciously into the infrastructure of neoliberal managerialist gentrification In addition the book explores the forms of capital accumulation which are emerging from the integration of adsensory technology into the gentrification of post industrial urban spaces and examines a new form of capital accumulation in inner city gentrification predicated on the degenerative integrity of adsensory financialisation

**The More Economic Approach to EU Antitrust Law** Anne C Witt, 2016-11-17 In the late 1990s the European Commission embarked on a long process of introducing a more economic approach to EU Antitrust law One by one it reviewed its approach to all three pillars of EU Antitrust Law starting with Article 101 TFEU moving on to EU merger control and concluding the process with Article 102 TFEU Its aim was to make EU antitrust law more compatible with contemporary economic thinking On the basis of an extensive empirical analysis of the Commission's main enforcement tools this book establishes the changes that the more economic approach has made to the Commission's enforcement practice over the past fifteen years It demonstrates that the more economic approach not only introduced modern economic assessment tools to the Commission's analyses but fundamentally changed the Commission's interpretation of the law Emulating one of the key credos of the US Antitrust Revolution thirty years earlier the Commission reinterpreted the EU antitrust rules as aiming at the enhancement of economic consumer welfare only and amended its understanding of key legal concepts accordingly This book argues that the Commission's new understanding of the law has many benefits Its key principles are logical translate well into workable legal concepts and promise a great degree of accuracy However it also has a number of serious drawbacks as it stands Most worryingly its revised interpretation of the law is to large extents incompatible with the case law of the European Court of Justice which has not been swayed by the exclusive consumer welfare aim This situation is undesirable from the point of view of legal certainty and the rule of law

Digital Personalized Health and Medicine Christian Lovis, Inge Cort Madsen, Patrick Weber, Per Hostrup Nielsen, Philip Scott, 2020-06-15 Digital health and medical informatics have grown in importance in recent years and have now become central to the provision of

effective healthcare around the world This book presents the proceedings of the 30th Medical Informatics Europe conference MIE This edition of the conference hosted by the European Federation for Medical Informatics EFMI since the 1970s was due to be held in Geneva Switzerland in April 2020 but as a result of measures to prevent the spread of the Covid19 pandemic the conference itself had to be cancelled Nevertheless because this collection of papers offers a wealth of knowledge and experience across the full spectrum of digital health and medicine it was decided to publish the submissions accepted in the review process and confirmed by the Scientific Program Committee for publication and these are published here as planned The 232 papers are themed under 6 section headings biomedical data tools and methods supporting care delivery health and prevention precision medicine and public health human factors and citizen centered digital health and ethics legal and societal aspects A 7th section deals with the Swiss personalized health network and section 8 includes the 125 posters accepted for the conference Offering an overview of current trends and developments in digital health and medical informatics the book provides a valuable information resource for researchers and health practitioners alike

**Open for Business** Richard Feinberg,2016-06-14 An expert guide to Cuba s economic opening to the outside world Ninety miles across the Straits of Florida an exciting new revolution is afoot This time instead of guerillas marching down the streets of Havana it is a global economy that will upend Cuba Now opening to the world what new forms is this nascent economy likely to take Open for Business The New Cuban Economy Richard E Feinberg s new book examines the Cuban economy as it makes its early steps into developing a more dynamic market economy He examines key issues like the role foreign investors will play how Cubans will forge a path to entrepreneurship and the roadmaps suggested by other emerging economies As Cuba s economy awakens from the post Castro dream it will do so with a flavor that is uniquely Cuban Feinberg s book enriched by interviews and in depth field research conducted over the last five years speaks both to Cuba s legacy and to its new horizons on the world stage

**Pharmocracy** Kaushik Sunder Rajan,2017-03-02 Continuing his pioneering theoretical explorations into the relationships among biosciences the market and political economy Kaushik Sunder Rajan introduces the concept of pharmocracy to explain the structure and operation of the global hegemony of the multinational pharmaceutical industry He reveals pharmocracy s logic in two case studies from contemporary India the controversial introduction of an HPV vaccine in 2010 and the Indian Patent Office s denial of a patent for an anticancer drug in 2006 and ensuing legal battles In each instance health was appropriated by capital and transformed from an embodied

state of well being into an abstract category made subject to capital s interests These cases demonstrate the precarious situation in which pharmocracy places democracy as India s accommodation of global pharmaceutical regulatory frameworks pits the interests of its citizens against those of international capital Sunder Rajan s insights into this dynamic make clear the high stakes of pharmocracy s intersection with health politics and democracy *Financial World* ,1959 Independent Appraisals of Listed Stocks ,1941 **British journal of applied physics** ,1950 Soviet Physics, Solid State ,1988
