Flows and Practices Lyla Mehta,Bill Derman,2017-05-19 For the past two decades Integrated Water Resources Management IWRM has been the dominant paradigm in water resources This book explores how ideas of IWRM are being translated and adapted in Mozambique South Africa Tanzania Uganda and Zimbabwe Grounded in social science theory and research it highlights the importance of politics history and culture in shaping water management practices and reform and demonstrates how Africa has clearly been a laboratory for IWRM While a new cadre of professionals made IWRM their mission we show that poor women and men may not have always benefitted In some cases IWRM has also offered a distraction from more critical issues such as water and land grabs privatisation the negative impacts of water permits and a range of institutional ambiguities that prevent water allocations to small and poor water users By critically examining the interpretations and challenges of IWRM the book contributes to improving water policies and practices and making them more locally appropriate in Africa and beyond Evolution Education Around the Globe Hasan Deniz,Lisa A.
