Lincoln's Last Hours (Classic Reprint) Charles Augustus Leale, 2015-07-17 Excerpt from Lincoln s Last Hours One of the most cruel wars in the history of the world had nearly closed The people of the United States were rejoicing at the prospect of peace and returning happiness President Lincoln after the surrender of General Robert E Lee visited Richmond Virginia exposing himself to great danger and on his return delivered an address from the balcony of the White House I was then a Commissioned Officer in the Medical Department of the United States Army having been appointed from my native State New York and was on duty as Surgeon in charge of the Wounded Commissioned Officers Ward at the United States Army General Hospital Armory Square Washington District of Columbia where my professional duties were of the greatest importance and required constant and arduous attention For a brief relief and a few moments in the fresh air I started one evening for a short walk on Pennsylvania Avenue There were crowds walking toward the President s residence These I followed and arrived just at the commencement of President Lincoln s last public address to his people From where I stood I could distinctly hear every word he uttered and I was profoundly impressed with his divine appearance as he stood in the rays of light which penetrated the windows of the White House The influence thus produced gave me an intense desire again to behold his face and study the characteristics of the Savior of his Country Therefore on the evening of April 14 1865 after the completion of my daily hospital duties I told my Ward Master that I would be absent for a short time As a very large number from the Army stationed near Washington frequently visited the city a general order was in force that none should be there without a special pass and all wearing uniform and out at night were subject to frequent challenge To avoid this inconvenience officers stationed in Washington generally removed all signs of their calling when off duty I changed to civilian s dress and hurried to Ford s Theatre where I had been told President Lincoln General Grant and Members of the Cabinet were to be present to see the play Our American Cousin About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original

Schroeder-Lein,2012-10-18 The life of

America's sixteenth president has continued to fascinate the public since his tragic death. Now Glenna R. Schroeder-Lein unveils an engaging volume on the medical history of the Lincoln family. *Lincoln and Medicine*, the first work on the subject in nearly eighty years, investigates the most enduring controversies about Lincoln's mental health, physical history, and assassination: the conditions that afflicted his wife and children both before and after his death, and Lincoln's relationship with the medical field during the Civil War both as commander in chief and on a personal level. Since his assassination in 1865, Lincoln has been diagnosed with no less than seventeen conditions by doctors, historians, and researchers, including congestive heart failure, epilepsy, Marfan syndrome, and mercury poisoning. Schroeder-Lein offers objective scrutiny of the numerous speculations and medical mysteries that continue to be associated with the president's physical and mental health, from the recent interest in testing Lincoln's DNA and theories that he was homosexual to analysis of the deep depressions, accidents, and illnesses that plagued his early years. Set within the broader context of the prevailing medical knowledge and remedies of the era, *Lincoln and Medicine* takes into account new perspectives on the medical history of Abraham Lincoln and his family, offering an absorbing and informative view into a much mythologized yet underinvestigated dimension of one of the nation's most famous leaders. **Best of the Best** by the University Press Books for Public and Secondary School Libraries, 2013.

A Finger in Lincoln's Brain E. Lawrence Abel, 2015-01-16. This intriguing book examines Lincoln's assassination from a behavioral and medical sciences perspective, providing new insights into everything from ballistics and forensics to the medical intervention to save his life, the autopsy results, his compromised embalming, and the final odyssey of his bodily remains. In this book, E. Lawrence Abel sheds much needed light on the fascinating details surrounding the death of Abraham Lincoln, including John Wilkes Booth's illness that turned him into an assassin, the medical treatment the president is alleged to have received after he was shot, and the significance of his funeral for the American public. The author provides an in-depth analysis of the science behind the assassination, a discussion of the medical care Lincoln received at the time he was shot, and the treatment he would have received if he were shot today, and the impact of his death on his contemporaries and the American public. The book examines Lincoln's fatalism and his unbridled ambition in terms of empirical psychological science, rather than the fanciful psychoanalytical explanations that often characterize Lincoln psychohistories. The medical chapters challenge the long-standing description of Lincoln's last hours and examine the debate about whether Lincoln's doctors inadvertently doomed him.
