### Linde Hydraulic Control (LHC)

#### Digital electro-hydraulic controller

Instead of a control unit, an integrated control unit features the above control technology. Instead of a hydraulic controller, a computer electronic controller is used, which provides a wide range of functions for the drive unit and the working hydraulics (2).

#### Adaptation to various trucks

The electronic control unit is capable of controlling trucks from a variety of series and with different drive systems. To ensure efficient truck operation and safety, each truck model has a control unit that is specifically adapted to the truck.

#### Troubleshooting

The operation of the electronic control unit is indicated by a variety of signals. The electronic controller displays various error messages and warnings on the display or on the working hydraulics in the control unit. In addition, the control unit provides a variety of functions, including the emergency stop function.

- Working light function
- Emergency stop function of the control unit
- The truck is in the emergency stop function and the emergency stop button is pressed
- The truck is in the emergency stop function and the emergency stop button is pressed
- An error code appears on the display

These functions can be activated by pressing the emergency stop button on the control unit. During a fault, the control unit displays whether the error is a fault or a warning. If the error is a fault, the truck is in the emergency stop function. If the error is a warning, the error code appears on the display and one of the functions of the control unit is activated.

#### Changing the controller

##### 4.1.1.1.1.1

Problems regarding component damage due to electronic damage. Component damage is caused by a fault in the control unit.

The controller is equipped with a "Reset" button, which is located in the back of the control unit. Communication with the control unit is possible via the control unit and the control unit.

##### 4.1.1.1.2

If the controller is replaced, the control unit must be replaced and the control unit must be replaced. All necessary information is available in the control unit.
