Stoett, 2019-01-01 Despite sporadic news coverage of extreme weather events high level climate change diplomacy special UN days of celebration and popular media references to impending ecological collapse most students are not exposed to the detailed presentation and analysis of the international relations and diplomacy of environmental policy making Comprehensive and accessibly written for first year or second year undergraduates the second edition of *Global Ecopolitics* provides students with a panoramic view of the policymakers and the structuring bodies involved in the creation of environmental policies Detailing a considerable amount of environmental activity since its initial 2012 publication this up to date second edition uses an applicable framework of systemic analysis and important case studies that push students to form their own conclusions about past efforts present needs and future directions *Protecting Forest and Marine Biodiversity* Ed Couzens, Alexander Paterson, Sophie Riley, Yanti Fristikawati, 2017-11-24 This timely book contributes to discussions on the best legal practices to use to promote conservation protection and sustainable use of biological diversity in forest and marine areas The breadth of issues explored across these two themes is immense and the book identifies both key differences and striking commonalities between them *Wildlife Crime* Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2012-10-18 Wildlife legislation has become so complex that prosecutions fail and even specialist enforcement professionals struggle to implement it effectively Hundreds of birds of prey have been deliberately poisoned with substances such as carbofuran that have no legal use and the Government could easily make possession an offence The lack of sentencing guidelines on wildlife offences means that some offenders are being neither punished nor deterred in the courts The CPS is also failing to train its prosecutors to handle complex wildlife cases Furthermore the inflexible implementation in UK law of international agreements covering the trafficking of endangered species squanders limited resources The Government has maintained funding for specialist wildlife crime investigation and enforcement but this is provided on an ad hoc basis reducing operational effectiveness Funding provided to monitor wildlife crime on the internet was too short term to attract a suitably qualified individual to fill the post In 2004 the Committee called for a new database to record all wildlife crime but this has still not been introduced Internationally this report also examines how the rhino tiger and elephant are being driven to extinction by growing demand for illegal wildlife products in south east Asia and China The Government needs to exert robust diplomatic pressure in favour of the development and enforcement of wildlife law at the next CITES meeting in March 2013 In particular the Government should focus attention on the damaging effect of one off sales of impounded ivory which has been found to actually fuel demand for ivory products and seek an unequivocal international ban on all forms of ivory trade *The Greater One-horned Rhinoceros Conservation Action Plan*
