Mathematical Statistics is used as the textbook in providing answers to students as well as finding additional examples to the main text. Motivated by this and encouraged by some of my colleagues and Springer Verlag editor John Kimmel I have completed this book Mathematical Statistics Exercises and Solutions. This book consists of solutions to 400 exercises over 95% of which are in my book Mathematical Statistics. Many of them are standard exercises that also appear in other textbooks listed in the references. It is only a partial solution manual to Mathematical Statistics which contains over 900 exercises.
