Mental Health Case Note

Case Note Prepared By: **Olivia Anderson**,
Viva Tech Solutions
Date: 16th October 2050

Client Identification

Client has been chosen to remain anonymous in this case note in respect to their privacy. The client has been receiving mental health support for several months now.

Presenting Problem

The client presented signs of distress and challenges related to personal and professional life that were intruding on mental health. At initial stages, the client showed signs of anxiety and mild depression.

Progress and Response to Intervention

The client has shown commendable adaptation and progress through the course of the interventions. The therapeutic procedure employed has assisted the client in building resilience and learning better coping mechanisms. Anxiety symptoms have noticeably reduced, and client outlook has improved consistently, which is indicative of progress.

Challenges

While there are signs of improvement, the client still struggles in some areas. Certain triggers associated with the client's workplace, and social settings have caused episodic anxiety spikes. However, through continual support, we are working on desensitization strategies.
