**Mentoring: Aid to excellence in education, the family, and the community** International Association for Mentoring,1986      **Towards a Transformative Pedagogy for Early Childhood Care and Education** Naseema Shaik,Trevor Moodley,2024-07-12 This book addresses the priorities and possibilities towards developing transformative pedagogies in post apartheid South Africa To this end the book has

assembled a group of researchers who interrogated and engaged with a variety of dimensions that warrant pedagogical change in early childhood in South Africa The book focuses on young children practitioners and leaders with intersecting discussions about envisaged systemic changes to promote transformative pedagogies The collection highlights the importance of beliefs ways of knowing and ways of being as framings that impact on pedagogical approaches The book discusses the challenges that interplay between priorities and possibilities that practitioners face in a diverse and multi cultural society like South Africa The work uses a variety of examples to show priorities One example is about how practitioners have limited knowledge about how music as a culturally responsive tool can be used to transform pedagogy in Early Childhood Care and Education The book opens up dimensions as priorities that lead to thinking about possibilities that recast adults and young children as transformative agents in a dimension for transformative pedagogies Breaking the Ice Matt Noffs,2016-07-01 The so called war on drugs has been a colossal failure and this book offers further proof that we must treat drug use as a public health issue not as a crime Sir Richard Branson This landmark book from Matt Noffs and his team at the Noffs Foundation is a much needed voice of reason in the national conversation around the drug ice What is ice What does it do to the brain What can we learn from previous drug policies about managing the current crisis And what are the practical steps we can take as parents and carers to help our kids Matt Noffs has interviewed leading experts in the public health sector and the justice system along with drug policymakers and shapers as well as ice users and their families He believes we can keep the crisis contained and managed but we need to do so calmly and strategically as parents as a community and as a nation For anyone seeking to understand what the drug is and how to help our children and our communities get through this crisis this book is full of facts and sensible advice and most importantly it is full of hope

Candlin,Sik Hung Ng,Chi-yue Chiu,2004 This book stresses on the social purpose of language use and its cognitive development It covers a diverse set of topics with many real life illustrations of the interaction of culture identity and communication How the Social Context Influences Mentoring Beginning Teachers at Grammar Schools in Lucerne Bruno Rihs,2008-02 Seminar paper from the year 2007 in the subject Pedagogy Job Education Occupational Training Further Education University of Sheffield Faculty of Organisation and Management 24 entries in the bibliography language English abstract The aim of this assignment is to look at how the social context influences mentoring beginning teachers We discuss different conditions that affect the performance of the mentoring process and look at the context and the people and analyse interaction between

them The model We use follows the basic principles of the Theme Centred Interaction TCI of Ruth Cohn Instead of the term Globe that is used in TCI we will look at the context in which mentoring takes place Then we will look at the people involved the actors and their roles and finally we will reflect on the interaction It can be suggested from this discussion that social context does attribute in a significant manner on the relationship between a mentor and his her mentee It would be only logical to be aware of this influence of social or outside environment and make it conducive for both the mentor and the mentee so as to nurture this relationship into a strong bond Trust is something that happens within people only when it is created between people Chip R Bell In the process of mentoring relationship between the two individuals involved have to build on this trust themselves for a better outcome therefore one has to believe in the process and its consequences As Vivian Buchen said One change makes way for the next giving us the opportunity to grow Social growth of those involved depends on the process and in turn they help in growth of the society Coming together is a beginning Keeping together is progress Working together is a success *Journal of the American Dietetic Association* ,2003 [EBOOK Vocational Training and Assessment](#) Dan Hill,Terry Hill, Lee Perlitz,2016-07-18 The second edition of Vocational Training and Assessment addresses all of the requirements for successful completion of the Certificate IV in Training and Assessment With each chapter aligned to the training package competencies all core units and a range of popular electives are covered KEY FEATURES Content is clearly mapped to units of the training package Assessment tasks are mapped to elements and performance criteria Case studies Instructor resources Blended learning or digital only options available [The Journal of Nursing Education](#) ,1988

*Mentoring for the Spanish Speaking Nurse* Dr. Tracey Soper,2017-11-24 Research Paper postgraduate from the year 2017 in the subject Communications Intercultural Communication grade 4 0 course Practicum language English abstract The purpose of this quantitative project was to examine if the implementation of a mentoring program for Spanish speaking nurses facilitated improvement in communication This project focused on answering did the improved communication resulting from the mentoring program lead to improved patient interactions and ultimately improved patient satisfaction as evidenced by their Hospital Consumer Assessment of Healthcare Providers and Systems survey results The project studied 78 nurses randomly selected from the nurses on a Southwest telemetry unit Nurses were then assigned the role of mentor or mentee To qualify as a mentor the nurse had to speak fluent English have an above average employment evaluation The director of the unit approved the mentor mentee assignments The communication section of the HCAHPS survey was compared from the time frame in 2016 to the exact same time frame in the year previously A statistical analysis of the data revealed there was no difference in communication by nurses based on the mentor mentee program outcomes as demonstrated on the HCAHPS survey results It can be concluded that the mentor program may not be cost and time effective The study recommends that hospital educators formulate policies that support effective communication of nurses while also considering the efficient use of nurses time and institutional financial resources El Paso Texas is fewer than five miles from

the United States Mexico border and 81.2% of its residents identify as Hispanic. Many of these residents speak Spanish as their first language; the same is true for nurses working in the city and its surrounding areas. Approximately 80% of the nurses in a given unit at the Southeastern Hospital speak Spanish, and 90% of the patients are English speaking. Patient satisfaction measured by the HCAHPS is low, and for this hospital it appears to result from the number of Spanish speaking nurses that serve patients in these units. Evidence suggests that difficulty communicating with patients is common for Spanish speaking nurses and those that speak other non English languages. The result is a high turnover rate among nurses as well as poor patient outcomes and satisfaction. These results are consistent with what has been observed at Southeastern Hospital.
