Data Nathaniel Tkacz,2022-06-01 Once the rarified stuff of scientists and statisticians data are now at the heart of our global  
digital economy transforming everything from how we perceive the value of a professional athlete to the intelligence  
gathering activities of governments We are told that the right data can turn an election help predict crime improve our  
businesses our health and our capacity to make decisions Beginning with a simple question how do most people encounter  
and experience data Nathaniel Tkacz sets out on a path at odds with much of the contemporary discussion about data When  
we encounter data he contends it is often in highly routinised ways through formatted displays and for specific cognitive  
tasks What data are and can do is largely a matter of how they are formatted To understand our datafied societies we need to  
turn our attention to data s formats and the powers of formatting This book offers an account of one such format the  
dashboard From their first appearance with the horse and carriage Tkacz guides readers on the historical development of  
this format Through analyses of car dashboards early managerial dashboards and the gradual emergence of dashboards as a  
computer display technology Tkacz shows how today s digital dashboards came to be and how their cultural history  
conditions the present Highly original and wide ranging this book will change how you think about data     Popular Science
