Kerr-Ritchie, 2003-07-11 Throughout the colonial and antebellum periods Virginia s tobacco producers exploited slave labor to ensure the profitability of their agricultural enterprises In the wake of the Civil War however the abolition of slavery combined with changed market conditions sparked a breakdown of traditional tobacco

culture Focusing on the transformation of social relations between former slaves and former masters Jeffrey Kerr Ritchie traces the trajectory of this breakdown from the advent of emancipation to the stirrings of African American migration at the turn of the twentieth century Drawing upon a rich array of sources Kerr Ritchie situates the struggles of newly freed people within the shifting parameters of an older slave world examines the prolonged agricultural depression and structural transformation the tobacco economy underwent between the 1870s and 1890s and surveys the effects of these various changes on former masters as well as former slaves While the number of older freedpeople who owned small parcels of land increased phenomenally during this period he notes so too did the number of freedom s younger generation who deserted the region s farms and plantations for Virginia s towns and cities Both these processes contributed to the gradual transformation of the tobacco region in particular and the state in general
