The core of these strategies addresses the necessity of stemming the outflow of revenue while strongly supporting FDI both inbound and outbound while complying with international obligations, including those arising from human rights laws. This book is the first in-depth commentary on this new and evolving area of international tax law. The detailed analysis covers the entire field of BRICS international tax law, considering topics such as the following: information exchange procedures and pitfalls; response to the OECD's Base Erosion and Profit-Sharing (BEPS) initiative; role of bilateral and multilateral double taxation conventions, including the Multilateral Instrument and the Bilateral
