Kosovo Operation Allied Force After Action Report:

Report to Congress Kosovo Operation Allied Force after-action report , **Report To Congress:. Kosovo/Operation Allied Force After-Action Report** ,2000 **America's Viceroy**s D. Reveron,2004-07-01 With the U S armed forces playing an ever increasing central role in American foreign policy surprisingly little attention has been paid to the role of regional Commanders in Chief CINCs in both implementing and shaping relations with various countries Wielding tremendous power and substantial resources both military and economic these officers are also diplomats advisors and intermediaries between other countries and the Washington policy process This book explores the role these military commanders play in contemporary U S foreign policy **Military Coercion and US Foreign Policy** Melanie W. Sisson,James A. Siebens,Barry M. Blechman,2020-04-23 This book examines the use of military force as a coercive tool by the United States using lessons drawn from the post Cold War era 1991 2018 The volume reveals that despite its status as sole superpower during the post Cold War period US efforts to coerce other states failed as often as they succeeded In the coming decades the United States will face states that are more capable and creative willing to challenge its interests and able to take advantage of missteps and vulnerabilities By using lessons derived from in depth case studies and statistical analysis of an original dataset of more than 100 coercive incidents in the post Cold War era this book generates insight into how the US military can be used to achieve policy goals Specifically it provides guidance about the ways in which and the conditions under which the US armed forces can work in concert with economic and diplomatic elements of US power to create effective coercive strategies This book will be of interest to students of US national security US foreign policy strategic studies and International Relations in general Combating Proliferation Jason D. Ellis,Geoffrey D. Kiefer,2007-02-23 Selected by Choice Magazine as an Outstanding Academic Title The intelligence community s flawed assessment of Iraq s weapons systems and the Bush administration s decision to go to war in part based on those assessments illustrates the political and policy challenges of combating the proliferation of weapons of mass destruction In this comprehensive assessment defense policy specialists Jason Ellis and Geoffrey Kiefer find disturbing trends in both the collection and analysis of intelligence and in its use in the development and implementation of security policy Analyzing a broad range of recent case studies Pakistan s development of nuclear weapons North Korea s defiance of U N watchdogs Russia s transfer of nuclear and missile technology to Iran and China s to Pakistan the Soviet biological warfare program weapons inspections in Iraq and others the authors find that intelligence collection and analysis relating to WMD proliferation are becoming more difficult that policy toward rogue states and regional allies requires difficult tradeoffs and that using military action to fight nuclear proliferation presents intractable operational challenges Ellis and Kiefer reveal that decisions to use or overlook intelligence are often made for starkly political reasons They document the Bush administration s policy shift from nonproliferation which emphasizes diplomatic tools such as sanctions and demarches to counterproliferation which at times employs interventionist

and preemptive actions They conclude with cogent recommendations for intelligence services and policy makers

Kosovo/Operation Allied Force After-action Report ,2000 **Yugoslavia Unraveled** Raju G. C. Thomas,2003-10-13

Unlike many of the works on the Yugoslav wars written during and just after the crisis Yugoslavia Unraveled delves beyond who did what to whom to examine underlying issues regarding the sources of religious nationalism and inter ethnic conflict the territorial integrity and sovereignty of states and the principle of self determination and the right of secession from an existing state This volume raises essential questions pertaining to the legality and morality of military intervention by external powers without U N sanction and to nation building by outside powers in war devastated territories The book also explores the nature of media propaganda in times of war Editor Raju G C Thomas and the prominent contributors provide fresh views and alternative explanations for the unraveling of a sovereign independent state following the end of the Cold War and in a world without countervailing power **Legal and Ethical Lessons of NATO's Kosovo Campaign** Andru E.

Wall,2002 *Legal and Ethical Lessons of NATO's Kosovo Campaign* Naval War College (U.S.),2002 **Military Review** ,2002 **Blitzkrieg to Desert Storm** Robert Michael Citino,2004 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India s blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino s study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level warfare in the post 9 11 era

Congressional Research Report ,2001 *Effects-based Targeting* T. W. Beagle,2001 *United States Naval Institute*

Proceedings ,2004 *Air Force Magazine* ,2000 The History of US Electronic Warfare: Rolling thunder through allied force, 1964 to 2000 Alfred Price,1984 **Theory of War and Strategy** J. Boone Bartholomees (jr.),2008 **MR** ,2003

Taking Command Tim Bonds,William E. Nelson,2001 The U S Air Force has faced significant challenges in its recent operations Forces have been called into action around the globe on short timelines that allow for neither adequate training or planning while Air Operations Centers providing theater command and control C2 have been built on the fly as forces are deployed to each contingency This paper describes the organization of the C2 force element supporting the Air Force component commander presents comments and criticisms from senior commanders and top Department of Defense officials regarding the Air Force s ability to command and control airpower in recent operations and describes new capabilities the theater C2 units need to employ aerospace forces to their greatest effect before and during theater combat operations The authors find that C2 systems and procedures 1 should be designed as part of a comprehensive concept 2 must be useful for the various training related tasks 3 allow for and facilitate continuous improvements and 4 be thoroughly evaluated and practiced by the commander and staff **NATO/Federal Republic of Yugoslavia** ,2000
