Reproducing the French Race Elisa Camiscioli, 2009-09-18 In *Reproducing the French Race* Elisa Camiscioli argues that immigration was a defining feature of early twentieth century France and she examines the political cultural and social issues implicated in public debates about immigration and national identity at the time Camiscioli demonstrates that mass immigration provided politicians jurists industrialists racial theorists feminists and others with ample opportunity to explore questions of French racial belonging France's relationship to the colonial empire and the rest of Europe and the connections between race and national anxieties regarding depopulation and degeneration She also shows that discussions of the nation and its citizenry consistently returned to the body its color and gender its expenditure of labor power its reproductive capacity and its experience of desire Of paramount importance was the question of which kinds of bodies could assimilate into the French race By focusing on telling aspects of the immigration debate Camiscioli reveals how racial hierarchies were constructed how gender figured in their creation and how only white Europeans were cast as assimilable Delving into pronatalist politics she describes how potential immigrants were ranked according to their imagined capacity to adapt to the workplace and family life in France She traces the links between racialized categories and concerns about industrial skills and output and she examines medico hygienic texts on interracial sex connecting those to the crusade against prostitution and the related campaign to abolish white slavery the alleged entrapment of white women for sale into prostitution abroad Camiscioli also explores the debate surrounding the 1927 law that first made it possible for French women who married foreigners to keep their French nationality She concludes by linking the Third Republic's impulse to create racial hierarchies to the emergence of the Vichy regime

Selling French Sex Elisa Camiscioli, 2024-01-25 This illuminating global history challenges the notion that coercion alone dictated women's migrations for work in the sex industry

Le Chemin de Buenos Aires Albert Londres, 2019-04-11 En 1926 l'auteur de *Marseille porte du Sud* s'intéresse aux réseaux de prostitution et en particulier au sujet très sensible l'époque de la traite des blanches savoir la migration plus ou moins forcée vers l'Argentine de jeunes femmes françaises pauvres tombées sous la coupe de proxénètes Après avoir recueilli des renseignements dans le milieu des souteneurs et des recruteurs parisiens le grand reporter embarque pour Bilbao Buenos Aires et Montevideo Sur place de trottoirs en maisons closes il mène une passionnante enquête de terrain sur la piste des Franchuchas

malgré l'hostilité de la police locale avec ses maquereaux trafiquants rastaquoures et canailles en tous genres tels Vacabana le Maure ou Victor le Victorieux. Il décrit avec minutie les mœurs et relations de complicité ou d'intérêts bien compris entre tous les membres de ces réseaux de prostitution notamment entre les filles et leurs protecteurs ainsi que les diverses communautés impliquées comme par exemple la puissante Zwi Migdal, une organisation de proxénètes juifs qui prostitue pour sa part les femmes juives polonaises. Le Chemin de Buenos Aires sous titre La traite des blanches est l'une des enquêtes les plus humanistes et les plus engagées d'Albert Londres qui le premier avec ce livre de reportage n'hésite pas à souligner la responsabilité collective du phénomène et mettre en cause le système social patriarcal et machiste qui l'engendre et en tire profit.

Gender, Generation, and Journalism in France, 1910-1940 Mary Lynn Stewart, 2018-06-20. In the late nineteenth century the first wave of female journalists began writing in the French daily press. Yet while they undeniably opened doors for the next generations of educated women, sexist hiring practices, assumptions about women's aptitudes as reporters, and more subtle gender biases continued to saturate the industry in the decades that followed. *Gender, Generation, and Journalism in France 1910-1940* investigates the careers and written work of ten women who regularly reported in the national Paris-based dailies. Addressing the role of mentorship, family connections, gendered behaviours, reporting styles, and subject matter, Mary Lynn Stewart debunks lingering essentialist notions about women's entry into journalism. She shows that struggling newspapers, attempting to reverse declining circulation, hired women to cover subjects that expanded to include international relations, colonial conflicts, trials, local politics, and social problems. Through content analysis, deixis, and systematic comparisons of several women and men reporting on the same or different events, she further queries claims about a feminine style, finding more similarities than differences between masculine and feminine reporting. Documenting the persistence of gender discrimination in the hiring, assigning, and assessment of women reporters in the French daily press, *Gender, Generation, and Journalism in France 1910-1940* demonstrates that through the support of their female colleagues, women managed to succeed despite a variety of challenges.
