Le régime de la Ve République est doté de deux gardiens qui ont la particularité de partager la même mission mais qui ne sont pas identiques parce qu'ils interviennent des moments différents. Au chef de l'État la charge de décider en tant que premier responsable et au conseil constitutionnel de contrôler que le régime dans ses principes est respecté. Si les nominations et l'élection présidentielle montrent la nécessité d'une coopération entre les deux, les articles 11, 16, 54 et 61, 2 prouvent la contribution réciproque et rejettent l'idée d'un rapport de dominant à dominé. En somme, chacun a besoin de l'autre pour exister et s'exprimer. La 5^{ème} République réussit à faire se rejoindre les thèses, pourtant si opposées de Hans Kelsen et de Carl Schmitt. La protection de la constitution est donc assurée par le chef de l'État, arbitre politique et par la haute instance organique juridictionnelle. L'équilibre du régime s'est aussi construit sur cette complémentarité qui joue la fois sur le terrain constitutionnel et dans l'arène politique. Si le président de la République s'aventure dans un dialogue politique, le conseil constitutionnel, bien que saisi par des autorités politiques, n'a qu'un objectif : dire le droit.

Constitutional Courts, Media and Public Opinion Angioletta Sperti,2023-11-16 This book explores how constitutional courts have transformed communication and overcome their reluctance to engage in direct dialogue with citizens. How has the information revolution affected the relationship of constitutional courts with the public and the media? The book looks in detail at the communication strategies of the US Supreme Court, the Supreme Court of Canada and in Europe the German Federal Constitutional Tribunal, the French Conseil Constitutionnel and the Italian Constitutional Court, arguing that when it comes to the relationship between courts and the media, different jurisdictions share many similarities. It focuses on the consequences of the communication revolution of courts both in terms of their relationship with public opinion and of the legitimacy of judicial review of legislation. Some constitutional courts have attracted criticism by engaging in proactive communication and therefore arguably yielding to the temptation of public support. The book argues that objections to the developing institutional communications employed by courts come from a preconceived notion of public opinion. It considers the burden the communication revolution has placed on constitutional courts to achieve a balance between transparency and seclusion, proximity and distance from public opinion. It puts forward important arguments for how this balance can be achieved. The book will interest scholars in constitutional law and public comparative law, sociologists, historians, political scientists and scholars of media law and communication studies.
