in the eighteenth century glittered but also seethed with new goods and new ideas In the halls of Versailles the streets of Paris and the soul of the Enlightenment itself a vitriolic struggle was being waged over the question of ownership of property of position even of personhood Those who championed man's possession of material spiritual and existential goods faced the successive assaults of radical Christian mystics philosophical materialists and political revolutionaries The Virtues of Abandon traces the aims and activities of these three seemingly disparate groups and the current of anti individualism that permeated theology philosophy and politics throughout the period Fired by the desire to abandon the self men and women sought new ways to relate to God nature and nation They joined illicit mystic cults that engaged in rituals of physical mortification and sexual license committed suicides in the throes of materialist fatalism drank potions to induce consciousness altering dreams railed against the degrading effects of unfettered consumption and ultimately renounced the feudal privileges that had for centuries defined their social existence The explosive denouement was the French Revolution

during which God and king were toppled from their thrones **Becoming a New Self** Moshe Sluhovsky,2017-10-12 In *Becoming a New Self* Moshe Sluhovsky examines the diffusion of spiritual practices among lay Catholics in early modern Europe By offering a close examination of early modern Catholic penitential and meditative techniques Sluhovsky makes the case that these practices promoted the idea of achieving a new self through the knowing of oneself Practices such as the examination of conscience general confession and spiritual exercises which until the 1400s had been restricted to monastic elites breached the walls of monasteries in the period that followed Thanks in large part to Franciscans and Jesuits lay urban elites both men and women gained access to spiritual practices whose goal was to enhance belief and create new selves Using Michel Foucault s writing on the hermeneutics of the self and the French philosopher s intuition that the early modern period was a moment of transition in the configurations of the self Sluhovsky offers a broad panorama of spiritual and devotional techniques of self formation and subjectivation **American Book Publishing Record Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography,1978 *The Life of Wisdom in Rousseau's "Reveries of the Solitary Walker"* Thomas L. Pangle,2023-04-15 *The Life of Wisdom in Rousseau s Reveries of the Solitary Walker* is the first complete exegesis and interpretation of Rousseau s final and culminating work showing its full philosophic and moral teaching *The Reveries* has been celebrated as a work of literature that is an acknowledged acme of French prose writing Thomas L Pangle argues that this aesthetic appreciation necessitates an in depth interpretation of the writing s complex and multileveled intended teaching about the normatively best way of life and how essential this is for a work that was initially bewildering Rousseau stands out among modern political philosophers in that he restored to political philosophy what Socrates and his students from Plato and Xenophon through Aristotle and the Stoics and Cicero had made central and that the previous modern Enlightenment philosophers had eclipsed the study of the life and soul of the exemplary independent sage as possessor of human wisdom Rousseau made this again the supreme theme and source of norms for political philosophy and for humanity s moral as well as civic existence In his analysis of *The Reveries* Pangle uncovers Rousseau s most profound exploration and articulation of his own life personality soul and thought as the man of nature enlightened by reason He describes in Rousseau s final work the fullest embodiment of the experiential wisdom from which flows and to which points Rousseau s political and moral philosophy his theology and his musical and literary art **A History of Advertising** Stéphane Pincas,Marc Loiseau,2008 Catalogue of the Library of the Peabody Institute of the City of Baltimore ... Johns Hopkins University. Peabody Institute. Library,George Peabody Library,1885 **Thinking about the Enlightenment** Martin L. Davies,2016-03-31 *Thinking about the Enlightenment* looks beyond the current parameters of studying the Enlightenment to the issues that can be understood by reflecting on the period in a broader context Each of the thirteen original chapters by an international and interdisciplinary team of contributors illustrates the problematic legacy of the Enlightenment and the continued ramifications of its thinking since the eighteenth century Together they consider

whether modernity can see its roots in the intellectual revolution of the seventeenth and eighteenth centuries The collection is divided into six sections preceded by a comprehensive introduction to the field and the most recent scholarship on the period Across the sections the contributors consider modern day encounters with Enlightenment thinking including Kant's moral philosophy the conflict between reason and faith the significance of the Enlightenment of law and the gender inequality that persisted throughout the eighteenth century By examining specific encounters with the problematic results of Enlightenment concerns the contributors are able to illuminate and offer new perspectives on topics such as human nature race politics gender and rationality Drawing from history philosophy literature and anthropology this book enables students and academics alike to take a fresh look at the Enlightenment and its legacy in the modern world **Medieval Allegory as**

Epistemology Marco Nievergelt,2023-03-21 In *Medieval Allegory as Epistemology* Marco Nievergelt argues that late medieval dream poetry was able to use the tools of allegorical fiction to explore a set of complex philosophical questions regarding the nature of human knowledge The focus is on three of the most widely read and influential poems of the later Middle Ages Jean de Meun's *Roman de la Rose* the *Pelerinages* trilogy of Guillaume de Deguileville and William Langland's vision of *Piers Plowman* in its various versions All three poets grapple with a collection of shared closely related epistemological problems that emerged in Western Europe during the thirteenth century in the wake of the reception of the complete body of Aristotle's works on logic and the natural sciences This study therefore not only examines the intertextual and literary historical relations linking the work of the three poets but takes their shared interest in cognition and epistemology as a starting point to assess their wider cultural and intellectual significance in the context of broader developments in late medieval philosophy of mind knowledge and language Vernacular literature more broadly played an extremely important role in lending an enlarged cultural resonance to philosophical ideas developed by scholastic thinkers but it is also shown that allegorical narrative could prompt philosophical speculation on its own terms deliberately interrogating the dominance and authority of scholastic discourses and institutions by using first person fictional narrative as a tool for intellectual speculation **Catalogue** Liverpool (England).
