Licircle Aux Femmes

Helena Taylor, Fiona Cox

Licircle Aux Femmes:

Maria Edgeworth and Her Circle in the Days of Buonaparte and Bourbon Constance Hill, 1910 Going Public Elizabeth C. Goldsmith, Dena Goodman, 1995 Exploring the ways in which French women went public through publication this book shows how they contributed to the formation of the public sphere in the seventeenth and eighteenth centuries Going Public also takes the critical literature on the woman writer to a new level by examining the implications of print publicity The contributors investigate the intersection of gender and publicity in a wide range of printed texts from memoirs and legal briefs to novels poems and fairy tales In doing so they reveal much about why individual women drawn from the whole spectrum of society embraced the medium of print and about the impact this form of publicity had on their lives **Ovid in French** Helena Taylor, Fiona Cox, 2023 This collection of essays examines the ways Ovid's diverse oeuvre has been translated rewritten adapted and responded to by a range of French and Francophone women from the Renaissance to the present It aims to reveal lesser known voices in Ovidian reception studies and to offer a wider historical perspective on the complex question of Ovid and gender Ranging from Renaissance poetry to contemporary creative criticism it charts an understudied strand of reception studies emphasizing how a longer view allows us to explore and challenge the notion of a female tradition of Ovidian reception The range of genres analysed here poetry verse and prose translation theatre epistolary fiction autofiction autobiography film creative critique and novels also reflect the diversity of the Ovidian texts in reception from the *Heroides* to the *Metamorphoses* from the *Amores* to the *Ars Amatoria* from the *Tristia* to the *Fasti* The study brings an array of critical approaches to bear on well known authors such as George Sand Julia Kristeva and Marguerite Yourcenar as well as less known figures from contemporary writer Linda L. to the early modern Catherine and Madeline Des Roches exploring exile identity queerness displacement voice expectations of modesty the poetics of translation and the problems posed by Ovid's eroticized violence to name just some of the volume's rich themes The epilogue by translator and novelist Marie Cosnay points towards new eco-critical and creative directions in Ovidian scholarship and reception Students and scholars of French Studies Classics Comparative Literature and Translation Studies will find much to interest them in this diverse collection of essays *The Origins of Modern Feminism* Jane Rendall, 1985-01-24 This comparative study analyses the emergence of feminist movements and their differing characters in Britain France and the United States Jane Rendall examines the social economic and cultural factors which affected women's status in society and led some women to act individually and collectively to seek to change it The Enlightenment emphasis on women's nature and the evangelical stress on the moral potential of women contributed to a framework of ideas which could be used by conservatives and by feminists Among the middle classes discussion focused on the need to improve women's education and on the strengths and limitations of domesticity Patterns of paid employment for women were shifting and Jane Rendall suggests that the weak position of women in the labor market during the early stages of industrialisation restricted their ability to associate together Yet

involvement in religious political and philanthropic movements could provide a means by which women might come together to identify their common concerns and learn the necessary political skills Jane Rendall places the origins of feminism in the broader context of social and political change in the nineteenth century looking both at the changing relationship between paid work and domestic life and at the links between feminism and class and political conflict in three different societies

Jus Suffragii ,1915 *Cahiers de la Femme* ,1978 *Political Ideas of Enlightenment Women* Lisa

Curtis-Wendlandt,Paul Gibbard,Karen Green,2016-04-22 This edited collection showcases the contribution of women to the development of political ideas during the Enlightenment and presents an alternative to the male authored canon of philosophy and political thought Over the course of the eighteenth century increasing numbers of women went into print and they exploited both new and traditional forms to convey their political ideas from plays poems and novels to essays journalism annotated translations and household manuals as well as dedicated political tracts Recently considerable scholarly attention has been paid to women s literary writing and their role in salon society but their participation in political debates is less well studied This volume offers new perspectives on some better known authors such as Mary Wollstonecraft Catharine Macaulay and Anna Laetitia Barbauld as well as neglected figures from the British Isles and continental Europe The collection advances discussion of how best to understand women s political contributions during the period the place of salon sociability in the political development of Europe and the interaction between discourses on slavery and those on women s rights It will interest scholars and researchers working in women s intellectual history and Enlightenment thought and serve as a useful adjunct to courses in political theory women s studies the history of feminism and European history

both the conventions and the study of religion in radical ways Canadian feminists are no exception Gender Genre and Religion is the outcome of a research network of leading women scholars organized to survey the contribution of Canadian women working in the field of religious studies and further to plot the path forward This collection of their essays covers most of the major religious traditions and offers exciting suggestions as to how religious traditions will change as women take on more central roles Feminist theories have been used by all contributors as a springboard to show that the assumptions of unified monolithic religions and their respective canons is a fabrication created by a scholarship based on male privilege Using gender and genre as analytical tools the essays reflect a diversity of approaches and open up new ways of reading sacred texts Superb essays by Pamela Dickey Young Winnie Tonn Morny Joy and Marsha Hewitt among others honour the first generation of feminist theologians and situate the current generation showing how they have learned from and gone beyond their predecessors The sensitive and original essays in Gender Genre and Religion will be of interest to feminist scholars and to anyone teaching women and religion courses Catalogue of Music British Museum,1888 *The Dublin University Calendar* Trinity College (Dublin, Ireland),1904 Catalog of Copyright Entries Library of Congress.
