Cumulated Index Medicus ,1989 **Annual Report** South Africa. Department of Basic Education,2016 **Christians Shaping Identity from the Roman Empire to Byzantium** Geoffrey Dunn,Wendy Mayer,2015-07-14 The essays collected in *Christians Shaping Identity* celebrate Pauline Allen s significant contribution to early Christian late antique and Byzantine studies especially concerning bishops heresy orthodoxy and christology Covering the period from earliest Christianity to middle Byzantium the first eighteen essays explore the varied ways in which Christians constructed their own identity and that of the society around them A final four essays explore the same theme within Roman Catholicism and oriental Christianity in the late 19th to 21st centuries with particular attention to the subtle relationships between the shaping of the early Christian past and the moulding of Christian identity today Among the many leading scholars represented are Averil Cameron and Elizabeth A Clark *Montaigne* Philippe Desan,2019-01-29 A definitive biography of the great French essayist and thinker One of the most important writers and thinkers of the Renaissance Michel de Montaigne 1533 92 helped invent a literary genre that seemed more modern than anything that had come before But did he do it as he suggests in his *Essays* by retreating to his chateau and stoically detaching himself from his violent times Philippe Desan overturns this long standing myth by showing that Montaigne was constantly connected to and concerned with realizing his political ambitions and that the literary and philosophical character of the *Essays* largely depends on them Desan shows how Montaigne conceived of each edition of the *Essays* as an indispensable prerequisite to the next stage of his public career It was only after his political failure that Montaigne took refuge in literature and even then it was his political experience that enabled him to find the right tone for his genre The most comprehensive and authoritative biography of Montaigne yet written this sweeping narrative offers a fascinating new picture of his life and work Index Medicus ,2001 **Resources in Education** ,1986

Cummings,1998 *Coming to Christ* provides a retrieval of the traditional Christian doctrine of eternal life through scripture and the history of theological reflection while presenting the liturgy as primary theology since it addresses God directly It traces back to Neanderthal man the reality of human hope that looks beyond death and demands final expression in eternal communion with God This book examines Christian eschatology which developed not only through the universal experience of mankind but through the Scriptures and in the reception of the scriptures in the tradition of reflection of the church The author discusses selectively representative Christian thinkers in the Patristic

Medieval and Reformation periods exposing the similarities between them He then moves into the radically changed thinking of modern times beginning with Kant and the liberal nineteenth century Protestant theology as well as an examination of Protestant Catholic Anglican and Orthodox theologians to give a sense of range and scope of twentieth century eschatology Also addressed are the contemporary issues of reincarnation from a Christian perspective along with feminist and ecological eschatologies
