Doing Their Bit Kimberly Brice O'Donnell, 2019-05-08 The first in depth study of the role of canines in WWII Britain an important but hitherto under represented subject with photos included Society of Army Historical Research The Second World War allowed for the use of an unprecedented number of dogs for military duties both internationally and among the British Armed Forces On the British Home Front civilians responded to calls from the British Army s War Dogs Training School and the Ministry of Aircraft Production Guard Dog Training School by donating their canine pets for military training and employment for the duration As dogs were instructed in roles with the British Army the Royal Air Force and the London Civil Defence Region the distinction between pet and trained working animal became increasingly unclear While civilians and servicemen alike continued to view military dogs as pets many also saw trained canines as human like soldiers doing their bit a depiction promulgated by both the military and the wartime press Yet historians have paid little attention to the subject In the first comprehensive scholarly account of the employment of British military and Civil Defence dogs in the Second World War Kimberly Brice O'Donnell traces the story from the belated establishment of the short lived War Dog School and the Messenger Dog Service of the First World War to the more recent employment of canines in Iraq and Afghanistan With a focus on WWII Doing their Bit examines why and how dogs were trained and employed and how humans shaped and perceived their use Using archival material O'Donnell analyzes the performance of guard military police patrol mine detection and rescue dogs in training and on operations by considering the advantages and disadvantages of canines in such roles Military and Civil Defence dogs offered a number of advantages over humans and technological equipment and the experience gained by dog trainers and handlers led to the continued employment of canines in the postwar period While the use of horses and other animals has since diminished World War II marked a turning point in the history of the British military dog ushering in the seemingly permanent training of dogs for police and military roles *Higher Education and Police* Colin Rogers, Bernhard Frevel, 2018-02-14 This edited collection is concerned with the ideas challenges demands and framework of conditions behind police education from an international perspective Whilst not directly concerned with a classical comparison of education concepts from different countries the broad range of international contributors consider issues such as professionalization programmes how higher education programmes influence police organizations as well how higher education influences police practice in a global context Examining a wide array of countries from Germany to China and Brazil to show the flawed nature of an education system based purely upon an approach concerned with police officer numbers the editors of this book argue for the need for greater scientific education among police around the world to meet contemporary developments A timely and well informed study this book meets a crucial gap in the literature and will serve as an important contribution to existing work on policing crime prevention and theoretical criminology Police Education and Training Revisited: Drawbacks and Advances Mario S. Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public's safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community's trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd's murder by police have sparked new training initiatives regarding police de-escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police *Protest Policing and Human Rights* Michael Smith, 2022-12-30 This book examines protest policing and the toolbox of options available to police commanders in response The right to peacefully protest is intrinsic to democracy and embedded in British history and tradition The police are responsible for managing public order and facilitating peaceful protest and this has not been without criticism On occasions the police have found themselves in opposition to protest groups and there have been incidents of disorder as a result In response the development of Police Liaison Teams in the UK has presented the police with a gateway for dialogue between themselves and those involved in protest Drawing on two contrasting case studies the policing of the badger cull in South West England and an English Defence League EDL march in Liverpool this book explores the experiences of police commanders police liaison officers protesters counterdemonstrators members of local businesses and

other interested parties It explores how a dialogical approach with all those engaged in or affected by a protest has assisted the police in balancing human rights and reducing conflict for all An accessible and compelling read this book will appeal to students scholars and practitioners of policing politics criminology sociology human rights and all those interested in how protests are policed **Bangladesh Police ICT Master Plan 2015-2020** ,2015 Metropolitan Police Offices, Office of the Commissioner List & Index Society,1978 *"Code of Massachusetts regulations, 2016"* ,2016 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 Honour Based Crimes and the Law Mukaddes Gorar,2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies
