Chapter 1

Financial Statements and Business Decisions

ANSWERS TO QUESTIONS

1. Accounting is a system that collects and processes (analyzes, measures, and records) financial information about an organization and reports that information to decision makers.
2. Financial accounting involves preparation of the four basic financial statements and related disclosures for external decision makers. Managerial accounting involves the preparation of detailed plans, budgets, forecasts, and performance reports for internal decision makers.
3. Financial reports are used by both internal and external groups and individuals. The internal groups are comprised of the various managers of the entity. The external groups include the owners, investors, creditors, governmental agencies, other interested parties, and the public at large.
4. Investors purchase all or part of a business and hope to gain by receiving part of what the company earns and/or selling the company in the future at a higher price than they paid. Creditors lend money to a company for a specific length of time and hope to gain by charging interest on the loan.

Libby Libby Short Financial Accounting Answers:

Study Guide for Use with Financial Accounting Robert Libby, Patricia A. Libby, Daniel G. Short, 2003 Libby Libby Short wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text they considered career relevance as their guide when selecting material and the need to engage the student as their guide to style, pedagogy and design. Libby Libby Short is the only financial accounting text to successfully implement a real world single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real world financial statements. The companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting. **EBOOK: Financial Accounting (GE), 8e** Robert Libby, Frank Hodge, Patricia Libby, 2016-04-16 **EBOOK Financial Accounting GE 8e** **Telecourse Guide for Accounting in Action** Robert Libby, Daniel G. Young, 2011-03-01 *How Audiences Decide* A Cognitive Approach to Business Communication is a comprehensive introduction to persuasive communication in the context of business. It summarizes relevant theories and findings from the fields of cognitive science, social cognition, leadership, team cognition, psycholinguistics and behavioral economics. By illuminating the thought processes of many different audiences from consumers to Wall Street analysts to CEOs, it helps communicators better understand why audiences make the decisions they make and how to influence them. The book covers a broad range of communication techniques including those concerning persuasive speaking and writing, interviews and group meetings, content and style, typography and nonverbal behaviors, charts and images, rational arguments and emotional appeals, and examines the empirical evidence supporting each of them.
