## **Life Orientation Exemplar 2014 Grade 1:**

**The Partisan Next Door** Ethan C. Busby, Adam J. Howat, Jacob E. Rothschild, Richard M. Shafranek, 2021-09-29 In the United States politics has become tribal and personalized The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans Using data from surveys experiments and Americans own words we explore the content of partisan stereotypes and find that they come in three main flavors parties as their own tribes coalitions of other tribes or vehicles for political issues These different stereotypes influence partisan conflict people who hold trait based stereotypes tend to display the highest levels of polarization while holding issue based stereotypes decreases polarization This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity a turn to what we call responsible partisanship

**Language and Emotion. Volume 2** Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2022-11-07 The handbook Language and Emotion is intended to give a historical and systematic profile of the area It will aim to connect contemporary and historical theories approaches and applications and to cover eastern and western perspectives of language communication and emotion It will present all relevant aspects of language and emotion and thus contribute significantly to research in the field of linguistics and semiotics of emotion

**Handbook of Diffusion MR Tractography** Flavio Dell'Acqua, Maxime Descoteaux, Alexander Leemans, 2024-11-19 Handbook of Tractography presents methods and applications of MR diffusion tractography providing deep insights into the theory and implementation of existing tractography techniques and offering practical advice on how to apply diffusion tractography to research projects and clinical applications Starting from the design of MR acquisition protocols optimized for tractography the book follows a pipeline approach to explain the main methods behind diffusion modelling and tractography including advanced analysis of tractography data and connectomics An extensive section of the book is devoted to the description of tractography applications in research and clinical settings to give a complete picture of tractography practice today By focusing on technology models and applications this handbook will be an indispensable reference for researchers and students with backgrounds in computer science mathematics physics neuroscience and medical science Provides a unique reference covering the whole field of MRI diffusion tractography Includes in depth descriptions of the latest research and current state of the art of methods available in the field of diffusion tractography Present a step by step pipeline approach from setting up MRI data acquisition to the analysis of large scale tractography datasets

**Strategic Communication Theory and Practice** Carl H. Botan, 2017-12-18 A guide to strategic communication that can be applied across a range of subfields at all three levels grand strategic strategic and tactical communication Communication is a core function of every human organization so when you work with communication you are working with the very core of the organization Written for students academics

and professionals Strategic Communication Theory and Practice The Cocreational Model argues for a single unified field of strategic communication based in the three large core subfields of public relations marketing communication and health communication as well as strategic communicators working in many other subfields such as political communication issues management crisis communication risk communication environmental and science communication social movements counter terrorism communication public diplomacy public safety and disaster management and others Strategic Communication Theory and Practice is built around a cocreational model that shifts the focus from organizational needs and the messages crafted to achieve them to a publics centered view placing publics and their ability to cocreate new meanings squarely in the center of strategic communication theory and practice The author a noted expert in the field outlines the theories campaign strategies common issues and cutting edge challenges facing strategic communication including the role of social media ethics and intercultural strategic communication As the author explains the term strategic communication properly refers only to the planned campaigns that grow out of research and understanding what publics think and want This vital resource answers the questions of whether and how strategic level skills can be used across fields as it Explores the role of theory and the cocreational meta theory in strategic communication Outlines ethical practices and problems in the field Includes information on basic campaign strategies Offers the most recent information on risk communication preparedness and terrorism communication and employment in strategic communication Redefines major concepts such as publics from a cocreational perspective

*Education Reimagined: The Impact of Advanced Technologies on Learning* Mohammad Khalil, Mohammed Saqr, Sonsoles López-Pernas, Isabel Hilliger, 2024-12-18 The last decade has seen significant progress in technology particularly in the fields of Artificial Intelligence and machine learning which have had a profound impact on numerous industries including education The integration of technology in education has fundamentally altered the landscape of learning where data becomes a crucial component to provide insights into for example how students learn when and where additional support is needed Employing educational data is proving to be a catalyst for innovation in education opening up new possibilities for students and educators alike The focus of this Research Topic is to explore the impact of recent technological innovations and advances such as AI AI powered Chatbots Learning Analytics Virtual and Augmented Reality and remote and virtual labs on different education systems both from the educational and the psychological perspective The scope is twofold on the one hand examining the use of these advanced technologies in learning and teaching activities and on the other hand teaching students about these technologies and understanding the impact of including them in new education policies and curricula including teaching of AI data science analytics and the ethical implications of data The Research Topic seeks to provide insightful and thought provoking perspectives on how technology is being utilized to enhance the learning experience for students of all ages Both in higher education and K12 education and their transition to higher education By gathering experts in psychology education and technology this Research Topic aims to present research

findings and best practices and to stimulate discussions on the role of technology in shaping the future of education The ultimate objective is to inspire innovation and to improve the education of future generations through advanced technologies

**Perceptual Linguistic Salience: Modeling Causes and Consequences** Alice Blumenthal-Dramé, Adriana

Hanulíková, Bernd Kortmann, 2017-06-05 Recent years have seen an upsurge of interest in the notion of salience in linguistics and related disciplines While in top down salience perceivers endogenously direct their attention to a certain stimulus in the bottom up salience it is the stimulus itself which attracts attention In prototypical cases of bottom up salience the stimulus stands out because it is incongruous with a given ground by virtue of intrinsic physical characteristics But a stimulus may also cause surprise by virtue of deviating from a cognitive ground e g when violating social or probabilistic expectations This has prompted researchers to examine the relationship between expectations and the perceptual salience of linguistic stimuli in new ways This e book features contributions from different scientific frameworks The reader will find commentaries reviews and original research articles on models of sociolinguistic and morphological salience the role of attention affect and predictability and on how salient items are processed categorized and learned Taken together the articles in this volume contribute to our understanding of how the perceptual salience of linguistic forms and variants can be theoretically framed and methodologically operationalized in different areas of linguistic processing
